

THE Supreme Court of Tennessee has let Scopes off from his small fine, on account of a technical error in assessing it, but it has sustained the anti-evolution law itself, which he was convicted. It is therefore within the police power of a state, if this decision stands, to prevent the teaching of anything, no matter how universally accepted as truth, to which its legislators object.

FOR this reason, it is to be hoped that some way will be found to appeal the case to the Supreme Court of the United States. If this inquisitorial power to suppress truth is within the authority of governments, in this country, it is time we found it out.

No American state government can pass a law depriving any one of life, liberty or property without due process of law, punish him for what was not a crime when committed, authorize excessive bail or unusual punishments, and the like, nor establish a religion, banish any American citizen from its territory, or deny to any person the equal protection of its laws. All sorts of things, we have determined, shall be beyond the power of any government to do, no matter how large a majority of its people wish them done.

Now we are to see whether the suppression of the teaching of truth is in the permissible or the prohibited class.

CONSIDER what states may do, if this is allowable. One state may prohibit the teaching of protection; another of free trade. A state may prohibit its medical colleges from teaching that vaccination protects against smallpox, or that bacteria cause certain diseases. Classes in history may be forbidden to read those letters of George Washington in which he says "I am not a philosopher, but a man of the people," or the present traditions of the heroworshippers. Even the cherry-tree story may be required to pass unquestioned. Students will certainly be prohibited from learning that the League of Nations continued to operate, after we had voted not to join it, or that there are Socialists in various respectable European governments. No account of the origins of the World War will be tolerated which adds anything to the simple schedule of war-time four-minute speeches. And the economic structure of the life and business of our time shall be conclusively presumed to be that of the last quarter of the Nineteenth century, and all facts inconsistent therewith shall be suppressed.

THIS is not a minor issue. It is, in fact, the very center of the issue of human freedom. We could better endure the suspension of all the guarantees of the Bill of Rights than to suffer any censorship by the civil power over freedom of learning and of teaching. If we were locked up without charges, convicted without trial, our property confiscated and our inheritance tainted, and that there are Socialists in various respectable European governments. No account of the origins of the World War will be tolerated which adds anything to the simple schedule of war-time four-minute speeches. And the economic structure of the life and business of our time shall be conclusively presumed to be that of the last quarter of the Nineteenth century, and all facts inconsistent therewith shall be suppressed.

THE United States government is not being rich enough, Secretary Mellon has set the chemists of his own research organization to searching for a safe denaturant for industrial alcohol. If the thing exists, or can be brought into existence, obviously these men will find it.

Then we shall hear the present agitators howl loudest of all.

For what would be the ideal denaturant?

Ideally, the denaturant should have exactly the same boiling point as alcohol, so that it would be impossible to distill it out. It must also, of course, not be possible to neutralize or precipitate it by adding other chemicals. Thus, once in the alcohol, it will remain there, beyond removal. It need not be poison. It need not even be intolerably vile in taste and smell. Ideally, it should be a violent emetic, so powerful that it would be physically impossible to retain in the stomach any drink containing it.

Alcohol containing such an ingredient, in a form incapable of removal, could then be sold freely without restrictions or supervision for all industrial purposes. Anybody could use it, in his radiator, his paint can, or his soap pot. He could even drink it, if he liked. But if he did, it would not stay down. It would be literally undrinkable. And yet it would be harmless. No such ingredient is now known to chemical science. But if Mr. Mellon's chemists find it—who will be the loudest to complain?

**Richest Woman In California Is Ill**

MENLO PARK, Calif., Jan. 25.—Miss Jennie Flood, California's richest woman, and known as the "Comstock heiress," is ill, but her condition is not regarded as at all serious, members of the family stated today, replying to reports that Miss Flood was in a critical condition. A sister of the late James L. Flood, who, with others, made many millions from a gold mine bonanza known as the Comstock lode, Miss Flood inherited his fortune and is regarded as one of the wealthiest women in the world.

## Senate Votes for Arbitration

### RESOLUTION ADOPTED BY UPPER HOUSE

Robinson Measure Urges Coolidge Pursue Course Of Amicable Settlement

#### AFTER DAY OF DEBATE

Action Not Mandatory on State Department, But Simply Reveals Attitude

(By United Press)

WASHINGTON, Jan. 25.—The senate officially expressed today its opinion that President Coolidge should seek arbitration of the Mexican land and oil law controversy.

After a day of debate, the Robinson resolution, expressing this attitude, was adopted. The document has no binding effect upon the state department, merely expressing the senate's opinion.

#### Text of Resolution

"That, while by virtue of sovereignty, the duty devolves upon the government to protect the lives and property of its nationals in foreign countries, which duty is not to be neglected or disregarded, it is nevertheless sound policy, consistent with the honor and best interest of the United States and promotive of international peace and good will, to submit to an arbitration tribunal, which shall apply the principles of international law, the controversies with Mexico relating to the alleged confiscation or impairment of the property of American citizens and corporations in Mexico; the arbitration agreement to provide for protection of all American property rights, pending the final outcome of the arbitration.

"That in good will and friendliness, efforts should be made and persisted in to effect arrangements which will commit the two governments to the policy of abiding by, and executing awards that may be made in consequence of such arrangements to arbitrate."

A warning that this government should withdraw recognition of Mexico and lift the arms embargo, if that country does not fulfill her international obligations justly, was sounded in the senate today by Senator Lenroot, Republican, Wisconsin.

In a speech regarded as outlining the administration attitude toward Mexico, Lenroot declared there were certain questions involved in the dispute which should not be submitted to arbitration.

The confiscation of American property in Mexico cannot be arbitrated, Lenroot maintained, except in cases where a controversy arises over compensation.

Follows Robinson Speech

Lenroot's speech followed remarks by Senator Robinson, author of the resolution for arbitration of American-Mexican oil troubles. Robinson had told the senate that relations with Mexico were strained, and that arbitration was essential to slacken the tension if hostilities were to be avoided.

The Democratic leader had charged, too, that Lord Crowder's big British oil interests in Mexico had recently gone either into the hands of Secretary of the Treasury Mellon or to the Mellon oil interests in this country.

"I am in favor of arbitration everywhere," said Senator Gillett, Republican, Massachusetts. The Robinson resolution is favorable to me because it expresses our hope that arbitration will ameliorate the difficulty."

### Road May Oppose Big Rail Merger

ST. PAUL, Minn., Jan. 25.—Developments centering in St. Paul are expected to foretell within the next few days whether the Chicago, Milwaukee, St. Paul and Pacific railroad will go before the interstate commerce commission to oppose the plan for consolidating the Northern Pacific and Great Northern railroads into one great system.

### MOTHER AND DAUGHTER DIE WHEN MOTOR CAR UPSETS

(By United Press)

SANTA ROSA, Jan. 25.—A mother and her daughter were killed instantly this morning, when the car in which they were riding overturned into a ditch.

Mrs. Rosana Blosser, 72, a pioneer of Willits, Cal., and Mrs. Martha Spear, 40, the daughter, were the victims.

The driver, V. A. Blosser, son of Mrs. Blosser, suffered minor injuries.

Blosser told the coroner that they were driving about five miles south of Willits, when car trouble developed which caused him to lose control of the machine, and it plunged into a ditch.

### PROGRESS MADE IN SECRET PARLEY TO END DISPUTE ON DIVISION OF RIVER WATERS

(By United Press)

LOS ANGELES, Jan. 25.—Reporting progress in their efforts to reach an amicable settlement of the water and power problem in connection with the proposed Boulder canyon dam, commissioners from California, Nevada and Arizona resumed their conference here today.

The meetings are being held in secret, all announcements to the press being made through Charles P. Squires, of Nevada, chairman of the conference.

"It is difficult to put into words the general principles as agreed to orally. However, an atmosphere of optimism surrounds the gathering and we are nearer to success than ever before," Squires said.

Eleven commissioners from the three states are attending the session, the main issue of which is the allocation of water to the three states and the tax to be paid for power generated by the proposed dam.

### PEACHES TELLS OF CINDERELLA MAN'S WOOING

#### Child Wife of Browning Breaks Down While on Witness Stand

(By United Press)

WHITE PLAINS, N. Y., Jan. 25.—Frances Heenan Browning, pretty 16-year-old wife of Edward Browning, middle-aged real estate dealer, today told the story of the romance which has made her nationally known.

She appeared as her own chief witness in her suit for separation, which she and Browning are now waging.

Attired in blue, with blonde curls peeking out from a close-fitting hat, she answered the call of her attorney for her to go to the witness stand soon after today's session of court opened.

Mrs. Browning's recital was interrupted suddenly after about half an hour, when she broke down. She was led from the witness stand by her mother while court recessed, and stood sobbing in her mother's arms back of the jury box, seeming inconsolable.

#### Brown Wins Court

Browning had arrived in court just before his wife's evidence began. As her name was called, he became embarrassed and, as she passed him, he did not look at her.

Mrs. Browning immediately launched into her story. She said that she first met Browning at a dance, in a New York hotel, March 5, 1926. She had gone to the dance with a "boy friend," she said.

Previous to Mrs. Browning's appearance as a witness, the court had ruled in favor of an open, instead of a secret hearing of the case.

Mrs. Browning began her recital at the start of her romance. She explained that the dance, at which she met Browning, was given by a Greek letter society, but after an attempt, confessed she could not pronounce its name. Browning arrived about 11 p. m., at the dance, she said, and was greeted "by a great many" of those present. Near midnight, her escort and a "girl friend" introduced her to Browning.

They danced together and he left about 12:30 a. m.

"He asked me if he might see me later," she said. "He said he wanted to take me to the theater some time."

See Greenwich Village Folies

"One or two weeks later, he called and asked me to go out with him. He took me to dinner at the Everglades club and later to see the Greenwich Village Folies."

"He asked me to marry him almost every day, but mother objected."

"She said she didn't think it was right for Mr. Browning to take up all my time."

On March 27, Peaches said, Browning was particularly insistent that she marry him.

"I told him I was too young," she said, "that he would have to wait. He spoke to mother about it and then came back and spoke to me again. I told him I was only 15. He said that he would have to wait at least until I was 16. He said that would be all right and he seemed satisfied."

### Bandits Flee With Gems Worth \$50,000

DENVER, Colo., Jan. 25.—Two bandits snatched purses containing diamonds and jewelry valued at between \$50,000 and \$60,000 from Harry Cohen, salesman for the United Diamond and Jewelry Manufacturing company, of New York, and escaped, here, today.

### MAN WHO FLED JAIL CELL WINS WIFE, FORTUNE

#### Murderer, Caught in North Dakota, Now Awaiting Death Sentence

(By United Press)

LOS ANGELES, Jan. 25.—A convicted murderer, who took a new lease on life, without the consent of the state, built a \$25,000 corporation in Minot, N. D., assumed another name and married, is waiting in the county jail here today for the death sentence.

Earl J. Clark, "the rose girl murderer," who was brought back to this city from Minot, after months of freedom, gained when he escaped from the state prison, was taken to the county jail, told of his battle to regain a place in life, in an interview here today.

"No one helped me," he began, "I landed outside of the jail here alone. I worked my way east by the rods and blind-baggage route. Finally I got a job in Minot as a decorator and paper hanger."

While working as a decorator, Clark met Miss Helen Scofield, daughter of a prominent grain and milling man in Minot. Clark not only won the respect of Scofield, but his daughter's love.

"After we married," Clark said, "my father said I was out for better things. He aided me in forming a corporation that had the backing of every business man in the city."

The Miller Paint and Decorating company, it was called, and I went under the name J. C. Miller. The business was showing a neat profit when they arrested me," Clark said.

Clark was convicted of the murder of Charles Silvas, in a fight over a woman, his escape from jail, and his first-degree murder verdict and Thursday he will appear in superior court to hear the new date of his execution set.

Clark comes from a pioneer Texas family of ranchers.

### French Franc Now On Better Basis

PARIS, Jan. 25.—The French franc, which seemed to be on the road to worthlessness six months ago, was practically stabilized today, French Finance told the financial committee of the chamber of deputies, when he appeared before it to report on his stewardship of French finances.

Poincare said the franc had practically been stabilized at 122 to the pound sterling.

The franc, normally worth 19.3 cents, was quoted at 3.35 cents today.

### Lindsey to Fight To Retain Office

DENVER, Colo., Jan. 25.—Judge Ben B. Lindsey, famous Denver jurist, is "going to fight to the last ditch," he declared today, in commenting on a state supreme court decision, removing him from the office of juvenile judge. Lindsey was not legally elected, the state supreme court decided yesterday.

### GRAND JURY REPORT HITS AT DIVORCES

#### Domestic Side of Life Is Touched Upon in Statement by Investigators

#### FLOOD CONTROL URGED

#### Inquisitorial Body Frowns Upon Highway Improvement Districts in County

Full report and recommendations of the grand jury will be found on page 2.

#### DELIVING NOT only in the economic aspect of life in Orange county, but touching the domestic problems as well, by special reference to the "divorce evil," the grand jury filed its general report with Superior Judge E. J. Marks, last night, and reserved a supplemental informal report for filing with the county board of supervisors today.

Discouragement of road improvement districts; defenses against a serious flood menace along the west bank of the Santa Ana river; continued co-operation with outside agencies in water conservation and fire protection; higher pay for policemen in Santa Ana and Orange, with the addition of men to the Santa Ana fire department, were recommendations contained in the general report.

#### Praise for Public Schools

Praise for the condition of all schools and public buildings, almost without exception, was given by the grand jury, which approved, also, the conduct of county officers and municipal affairs. Warm commendation was offered the social service department for its work in upbuilding the physical and moral welfare of needy hundreds; and finally:

"Recognizing and deploring the growing tendency toward the breaking of marital ties and the consequent disruption of homes, the grand jury recommends that our assemblyman be urged to advocate and indorse such corrective and additional legislation as will help to curb the divorce evil and afford protection to the home."

The report concluded. The grand jury department supervisors this afternoon, an innovation in grand jury procedure, directed attention to several needs, and suggested the appointment of a special commission of taxpayers to conduct a thorough examination of county department for the purpose of equalizing and adjusting salaries and staffs in proportion to the amount of work handled. Other recommendations in this report were the allowance of additional help for the county horticultural commissioner; repairs in the jury room of superior court department 3; completion of the tri-counties tuberculosis sanitarium as speedily as compatible with county finances; and the allowance of stationery for the offices of constables, who are presently required to provide their own supplies.

#### Horticultural Department Aid

The recommendation with relation to the horticultural department was included in the report, after a delegation of prominent citrus growers waited upon the grand jury. The recommendations are said to involve an additional expenditure of between \$3,000 and \$14,000 a year upon this department.

The care of tuberculosis patients demands provision of facilities at as early a date as possible, the grand jury decided, in recommending completion of the San Geronimo sanitarium project, in which Orange county associated itself with Riverside and Imperial counties. Plans in this connection were temporarily shelved last summer by the three counties, in view of the considerable amounts involved. The grand jury's general report touches upon crowded conditions at the county hospital, particularly in the building for tuberculosis patients, and approves the plan for a \$60,000 addition to the hospital.

The general report devotes itself, initially, to a discussion of highways, finances, and declares that the taxpayers, in some districts, have loaded an intolerable tax burden upon themselves by voting themselves into road improvement districts, assessments for which total as high as \$8 per \$100 of assessed valuation, while in one district, the tax levy is \$10 for each \$100 valuation. The grand jury takes particular note that the taxpayers have "imposed these burdens upon themselves," and calls upon the supervisors to discourage such road districts, except in

### Scream Saves Woman from Firing Squad

JUAREZ, Mex., Jan. 25.—A daring woman rebel leader, who three times led her forces to victory over federal troops, has been captured and escaped the firing squad by a scream.

Dressed in a soldier's uniform, the woman, with other rebels, was lined up before a firing squad. A frightened scream disclosed her sex and the federal troops spared her, but three fellow rebels were executed.

The woman refused to reveal her identity. Today she awaited trial in Zacatecas City.

### COURT DECISION IS SHARP BLOW TO PROSPECTOR

#### Carson Loses Ruling in Fight for Royalties From Invention

(By United Press)

BUTTE, Mont., Jan. 25.—Victories and reverses have been taking turns in deciding the fortunes of George Campbell Carson, San Francisco inventor, and today adversity held the winning hand.

This time, the setback was in the form of a decision handed down here by U. S. Judge George Bourquin, who ruled in favor of the Anaconda Copper Mining company, defendant in a suit that was part of a legal campaign to win more than \$15,000,000 in royalties for Carson.

Years ago, Carson was a prospector in Nevada. Like most prospectors, reverses came to him far more often than victories. Then, he turned to invention, and after much research work announced that he had perfected a new copper smelting process. It seems that the old prospector's luck had changed.

But so far, Carson's invention has brought him more trouble than dollars.

Recently success seemed within his grasp when he scored a tremendous victory, placing within his reach some \$20,000,000 in royalties, when the U. S. supreme court upheld a long and bitterly fought series of lower court actions, in which Carson had won verdicts against the American Smelting and Refining company.

Now adversity has come again. But the court decision is only one phase of Carson's fight for millions of dollars and success, and the prospector will carry on. He announced today, through attorneys, that the case would be appealed.

### CITRUS ESCAPES LOSS FROM COLD

LOS ANGELES, Jan. 25.—Although low temperatures were recorded in a number of sections of Southern California, accompanied by a light frost, no damage has been reported in the citrus district and growers are not apprehensive.

The temperature registered 47 at sunrise here today, one degree higher than the same time yesterday, with fair weather and frost forecast in interior points tonight.

At Escondido, the official temperature read 25 degrees at 6 a. m. today. Other points follow: El Cajon, 29; Imperial, 33; Newport Harbor, 48; Pasadena, 36; Pomona, 32; Redlands, 32; Riverside, 31; San Bernardino, 32.

### SCHOOL IS FIRE TRAP

FRESNO, Jan. 25.—Declaring the high school building of Sanger, near here, is a fire hazard and is insanitary, the Fresno county board of supervisors has advised that it be abandoned.

### MURDER TRIAL OPENS

BAKERSFIELD, Jan. 25.—Selection of a jury to try Orlan Cornell, on a charge of murdering his wife, Fairy Cornell, and stepdaughter, Fairy Gerasse, was in progress in superior court today.

### BOLD DAYLIGHT BANDITS ROB 2 GROCERY STORES

(By United Press)

LOS ANGELES, Jan. 25.—Bandits preying upon grocery stores, operated in two sections of the city with success, early today.

Walking in with employees when the store was opened for business, two bandits forced the manager of the Safeway grocery store, 8320 South Vermont, to turn over \$77, the contents of the safe.

First grocery store, 3600 East First street, Belvedere, was the victim of another pair of bandits, who obtained \$38, after lining customers up against a wall and threatening them with revolvers, it was reported to the sheriff's office.

### COOLIDGE TAKES ACTION FOR SAFEGUARDING LIVES OF AMERICANS IN ORIENT

#### House Committee Favorably Reports Resolution for Revision of Treaties in Far East

#### GREAT BRITAIN MASSES ARMY

(By United Press)

WASHINGTON, Jan. 25.—President Coolidge has decided to protect, in every way possible, American lives and property in China. He expects the state department soon to announce this government's policy toward the so-called "unequal treaties" with China, it was announced today at the White House, on the president's behalf.

The White House revelations followed closely upon the house foreign relations committee's action in favorably reporting the modified Porter resolution, calling upon the president to undertake negotiations for revision of the treaties.

Without a negative vote, the house foreign affairs committee today ordered a favorable report on the revised Porter resolution.

The resolution suggests negotiation of new treaties, "which shall take the place of the treaties now in force between the two countries, which provide for the exercise in China of American extrajurisdictional or jurisdictional rights or limit her full autonomy with reference to the levying of customs dues or other taxes."

#### Japan Will Not Land Army in China

TOKIO, Jan. 25.—Japan today notified the British, French and Belgium ambassadors that Japanese marines or troops would not be landed at Shanghai. The charge d'affaires representing Soviet Russia also was notified.

### U. S. LIEN ON CHAPLIN CASH TO BE LIFTED

#### Agreement Is Reached on Releasing Money in Eastern Banks

(By United Press)

WASHINGTON, Jan. 25.—Attorneys for Charlie Chaplin today reached an agreement with the government, for lifting the income tax lien against the film star's money in banks in the east.

"A satisfactory arrangement has been made to furnish the government with bonds," Isaac Siegel and Charles Schwartz, Chaplin's attorneys, said.

About \$600,000 now under lien will be released under the agreement, Siegel said, following a conference this morning with attorneys for the internal revenue bureau. The Chaplin attorneys also conferred at length yesterday with treasury lawyers.

This money, all in eastern banks is not subject to alimony orders of Los Angeles courts and hence cannot be seized for Lita Grey Chaplin, who is suing the comedian for divorce, Siegel said.

Government liens against Chaplin total \$1,135,000.

The attorneys are making no attempt to have the lien on the film star's California properties lifted.

### 2 MEN ARE GROUND TO DEATH BY TRUCK

TULARE, Calif., Jan. 25.—H. W. Bascom, 27, Glendale, and R. W. Conrad, 45, Sacramento, were mangled to death by the drive wheel chain of a truck, near here, early today, after the truck had crashed into their automobile, which had stalled in the center of the highway.

The automobile in which the two men, with their wives, were traveling from Glendale to Santa Rosa, lost a wheel and came to a stop in the center of the road.

A heavy fog is said to have prevented Thomas Patterson, of Bakersfield, driver of the truck, from seeing the machine until he struck it.

### Rancher Missing; Murder Is Hinted

TUCSON, Ariz., Jan. 25.—An investigation of a possible murder mystery, in connection with the disappearance of A. J. Mathis, rancher, missing since January 14, was continued by authorities here today, following important discoveries.

A bloodstained wrench and an ear-rumpet, found in the fireplace of the Mathis ranch, are the first tangible clues turned up by investigators.

Mrs. Eva Dugan, formerly of Ceres, Calif., who kept house for the man, is being sought for questioning.

## GENERAL REPORT OF 1926-27 GRAND JURY

**Board of Supervisors**  
After careful investigation of facts relating to expenditures on county roads for purposes of comparison during the period of five years from 1921 to 1926, inclusive, we find money raised by 40-cent tax rate was \$2,093,215.14; by good road tax, \$1,240,662.10; for bridges, \$408,511.56; appropriated from county general fund for roads, \$436,879.64; appropriated from county general fund for rights-of-way, \$78,359.77; the grand total of which is \$5,157,258.60.

Total amount spent from county general fund for roads during period from 1921 to 1926, with small additions only during the years 1924-26, \$516,136.91. During the period of 1924-26, a large proportion of the general fund was used for building new county buildings.

Total amount raised for road purposes in the year 1925-26 by 40 cent rate, county good roads, road tax, auto license fund, special road districts and bridges, approximately \$1,057,576.29.

It is recommended that the county roads department create a map of the county road system, showing what highways are main thoroughfares, and specifying what type of road construction would be best suited to all of the roads.

While the county tax rate is the fourth lowest in the state, an intolerable condition has been created in some parts of the county by special assessments, which the people have imposed upon themselves by vote of two-thirds of the property owners in road improvement districts, and other special assessment districts, the result being that some districts are now paying a total tax in excess of \$8 per hundred and one is paying more than \$10 per hundred.

It is recommended that the board of supervisors discourage the formation of such road districts except in urgent cases.

In the purchasing department, we find that economy and efficiency enter into the direction of its activities.

We indorse the program of advertising which is now being used by the board of supervisors.

**Flood Control and Fire Protection.**  
The grand jury directs the attention of Orange county to the urgent need of conserving and augmenting the present water supply.

The constantly lowering water levels and wastage of overflow during the winter months are warning signs and these conditions do not warrant the introduction of new industries, while the maintenance of farms, orchards and cities is seriously menaced. We believe that plans for co-operation between San Bernardino, Riverside and Orange counties for forest protection and water conservation should be encouraged to the fullest extent by the board of supervisors and that they should use every possible means to bring about the control of the Santa Ana river for irrigation purposes, as well as for flood protection.

Especially attention of county authorities is directed to the advisability of developing flood protective work in the Santiago creek from Villa Park to the junction of the creek with the Santa Ana river, keeping the channels straight and free from debris.

A creek protective district comprising Orange county and the city of Santa Ana might well be formed.

We also call attention to the menace of the Santa Ana river from Olive to the upper end of the Newbert Protection district, northwest of Santa Ana. Under present conditions, we consider the likelihood of flood damage from the probable breaking over of the river to be serious.

The county, by reason of the location of the county hospital, county farm and fair grounds, is directly interested in securing action looking toward adequate protective work along the west bank of the river.

The building of trails and fire-breaks in the Santa Ana mountains, the expense of which is borne equally by the county and federal government, should be prosecuted until the range is thoroughly protected. We urge the continuation of the county's helpful attitude and co-operation with the United States forest officials in fighting fires and other necessary protective work.

County Superintendent of Schools, Treasurer, Surveyor, and Commissioner, Social Service Department and County Auditor.

These offices were visited and it was found that the work is conducted in a thoroughly systematic and efficient manner.

In looking over the school warrants, we found that some of the schools in the county are evading the law relative to the expenditure of money for construction work in amounts exceeding \$200, and we would suggest that the district attorney advise the trustees of all school districts of the necessity of complying with the law by advertising for bids for construction work which exceeds this amount. Also that the Superintendent of Schools and auditor be assured of the compliance with this law before signing such warrants. We suggest that a method be devised by which money expended in payment of labor be receipted for by the recipient. With these changes in the offices of auditor and superintendent of schools, the work of these offices would be acceptably done.

The work of the social service department is of such a nature that few persons know of its extent and influence, and of its moral and spiritual value to the lives that it touches, to say nothing of its monetary value. During the year, many hundreds of positions were filled through this office, and 1188 children, ranging in age from a few weeks to 6 years, were cared for in the well baby clinic. Many homes that might otherwise have been disrupted were harmonized and in this and many other ways this office saves the county large sums of money.

**Clerk, Recorder, Assessor, District Attorney, County Library, Coroner and Public Administrator, Tax Collector and Sheriff.**  
Neatness, efficiency, attention to detail and unflinching courtesy characterize these offices. A very few minor clerical errors were noted by the auditors and these were corrected by the officers in charge. We find much to commend in the conduct of these offices.

We recommend a more modern system of indexing in the tax collector's office.

**County Health Office, County Hospital and Farm, Orange County Park, Roads, Bridge, Public Buildings and Justices of the Peace**

The grand jury has made a careful investigation of all county roads and bridges and with few exceptions find them in good order. We recommend a boulevard stop at Garden Grove road and Orange-Orange, and at Whitaker and Grand avenues.

The public buildings were found to be adequate for their purpose and in good condition. School buildings especially, with few exceptions, are of such high standard that we have only commendation for our educational institutions. We recommend that all new fires in open measure be screened as a safety measure and attention is called to the fire hazard from the location of the furnace in the Frances Willard junior high school, in Santa Ana.

We have visited the different justices' offices and found them satisfactory.

Having investigated the crowded conditions at the county hospital and noting the inadequate waiting room, the lack of room in several wards and especially the crowded condition of the building for tubercular patients, we wish to indorse the building program instituted by the board of supervisors at this time.

The grand jury has investigated each incorporated city in the county and inspected their various accounting systems, with particular attention to their policies. With the exception of Anaheim and Brea, each city has a periodical audit of all books by expert accountants and they were found to be well kept.

The city of Brea, not having had a recent audit, their books were examined and pronounced by our expert to be well kept and sufficient to their purposes. We would suggest that Anaheim have their books audited by expert accountants at least once a year, for their own information and that of the grand jury. We found their trustees apparently not only willing, but eager to correct any mistakes and follow the advice of the grand jury.

We request that particular attention be paid to that part of the law relating to the expenditure of sums in excess of \$300. It is recommended that the district attorney communicate with trustees of all incorporated cities with a view to bringing about better compliance. In some instances, city treasurers did not deposit public monies in such manner as to draw interest on the daily balance. Attention was drawn to this matter and we believe that the requirement will be observed.

In the matter of caring for public records, we would particularly advise the provision of more adequate means at Seal Beach.

The pier at Newport Beach was without lights and life-saving equipment. We called the attention of the trustees to this matter and we understand that it has been favorably acted upon.

The increase in population of Santa Ana has been so great that it is believed to be to the interest of public welfare and safety that more men be added to the fire department.

Santa Ana and Orange are paying their police patrolmen on an average of \$40 dollars a month less than the average paid in other cities of the county. We recommend an increase in these salaries, to the furtherance of public protection.

**Special:**  
Recognizing and deploring the growing tendency toward the breaking of marital ties and the consequent disruption of homes, the grand jury recommends that our assemblyman be urged to advocate and endorse such corrective and additional legislation as will help to curb the divorce evil and afford protection to the home.

A. W. GRIFFITH, Foreman.  
NORA EARL FAIRBANKS, Secretary.

## RECOMMENDATIONS BY JURY

The grand jury made the following recommendations to the board of supervisors:

**Survey Commission**  
The grand jury, recognizing the need of a general survey of all departments of county activities, with consideration given especially to salary revisions, adjustment of compensation for equal work and responsibility among the various officers and employees, based upon comparison with similar positions of equal hours and working conditions in the general business world, and in other counties of this class, at the same time taking into account the resources of Orange county and the constantly increasing burden upon the taxpayers, and further realizing that such survey is outside the province of a grand jury because of limited time, therefore:

We earnestly recommend to your board that a commission consisting of five taxpayers, competent, conservative and experienced persons, be appointed to make such a survey and that such compensation for their time and services be provided as is necessary for a thorough investigation. After such survey is satisfactorily completed, copies of their findings, together with their recommendation for changes, revisions and readjustments be furnished to your board of supervisors and to the grand jury of Orange county in time for use in making recommendations to the state legislature for its regular session in 1929.

**Constables' Offices**  
The grand jury recommends that the board of supervisors authorize the county purchasing agent to furnish necessary stationery for the constables' offices within the county upon request from the office.

**Courtroom Repairs**  
The grand jury, having inspected the rooms in the Hall of Records now used by Judge Allen as a courtroom, finds them unsuited in their present arrangement for that purpose and recommends to the board of supervisors that changes be made as economically as possible to provide adequate accommodations for the judge and the jury in holding court sessions.

**Tuberculosis Sanatorium**  
The grand jury has been reliably informed that 770 deaths have occurred from tuberculosis within a period of five years, in Orange county.

Having noted the alarming number of tuberculosis cases and the increasing number of deaths resulting from this cause, which is now positively known to be a curable disease, and upon investigation of the agencies now being used in this county for the care of these patients and to serve as preventive measures, we find them inadequate in room and unsuitable in location. Therefore, we recommend to the board of supervisors that the matter of building the tri-county hospital, known as the San Geronimo sanatorium, on the site above Banning, already owned by the three counties, be continued and completed at the earliest possible date.

**Horticultural Commission**  
We have investigated the needs of the horticultural department and find that the following deputy

commissioners, senior and junior inspectors and clerks are necessary to the most efficient conduct of the department:

Three deputy commissioners, \$250 per month; 12 senior inspectors, \$175 per month; three senior inspectors, \$150; two junior inspectors, \$130; one clerk, \$150; one clerk, \$125; one clerk, \$100 per month; five junior inspectors, \$5 per day.

A. W. GRIFFITH, Foreman.  
NORA EARL FAIRBANKS, Secretary.

## Grand Jury Report Hits At Divorce

(Continued from Page 1)

urgent cases. It is pointed out, in this connection, that the county tax rate, itself, is the fourth lowest in the state.

The report shows that, during the five-year period of 1921-1926, the county spent \$5,159,258.60 upon its highways, the year of 1925-6 accounting for \$1,057,576.29. It recommends that the county road department create a map of the highway system, marking main thoroughfares and specifying what type of road construction would be best suited to all of the roads.

"The urgent need of conserving and augmenting the present water supply" is pointed out in the light of warning signs noted by the grand jury. These conditions, says the report, do not justify the introduction of new industries while the maintenance of farms, orchards and cities is seriously menaced. Flood control along the Santa Ana river and Santiago creek is advised and attention is called to the menace of the Santa Ana river, unprotected, from Olive to the upper end of the Newbert Protection district, northwest of Santa Ana. By reason of the location of the county hospital, farm and fair grounds, the county is directly interested in this problem, it is said.

Santa Ana and Orange policemen are underpaid, in comparison with the police of other cities in the county, to the extent of about \$40 per month, says the grand jury report, which advises an increase in salaries for these officers.

## CHORUS MEMBERS DO BIT OF IMPROMPTU REHEARSING

Above are shown four members of the Santa Ana Boys' chorus doing a little impromptu rehearsing for the third concert by the singers, to be given Thursday night in the high school auditorium.

## 2800 Tickets Distributed By Jacians for Thursday Night Concert

Twenty-eight hundred tickets for the concert, Thursday night, in the high school auditorium, by the Santa Ana Boys' chorus, were distributed yesterday by officers of the Santa Ana Junior Chamber of Commerce and the mail, this morning, brought in a goodly number of checks from persons who desire to assist in making the organization a financial success. The chorus, organized by the music teachers of the Santa Ana public schools, was formed as the result of the suggestion of the junior chamber, which organization has assumed the financial responsibility for it.

The program, Thursday night, will be the third presented by the chorus in two months, the first two concerts having been given in December. Because of the Christmas buying rush and counter attractions, the attendances at the initial concerts were not sufficient to make up the \$500 expended by the junior chamber, for uniforms.

The concert, Thursday night, will include a number of new songs and selections by new soloists, picked from the ranks of the chorus. Robert Tannenbaum, skilled with the clarinet, will be heard, as will also Everhard Stovall, one of the most talented pianists among the young musicians in Santa Ana.

As is customary on every program, radio or concert, given by the chorus, the Santa Ana song, "Santa Ana, the Eden of the World," will be given a prominent place on the program. The concert will begin at 8 o'clock, Mrs. F. H. Beeson, director, said. Several of the songs will be directed by Miss Edith Cornell, assistant director. Miss Audrey Dohmer and Miss Elizabeth Parslowe will be accompanists.

## Y. M. C. A. TO HOLD COMMUNITY SING

Community singing for everyone is promised for Thursday night, at the Y. M. C. A. Secretary Ralph Smedley announces that A. J. Rutter, director of considerable experience, has been secured to wield the baton for this occasion and that the leader proposes to offer an attractive program of familiar popular songs. Song sheets and booklets will be provided for all. In addition to the singing, there will be special numbers, by the Misses Lucy Bell, Elizabeth Morgan, Dorothy Ramsey and Merle Ramsey.

The program will begin at 7:30, in the main lobby of the Y. Men and women are invited. Smedley issues an especial invitation to strangers in the city.

## SANTA ANA GIRL IN NEW SORORITY

Miss Laura Lehnhardt, of Santa Ana, has been chosen as one of the charter members of the Kappa Pi Zeta sorority, which was organized at the University of Redlands campus. This makes the appearance of the fifth sorority, and the first sorority to be organized within the last eight years.

There are nine charter members of the Zetas and these girls are all from the sophomore and junior classes. At the present time, there are only three fraternities on the campus.

The new \$200,000 chapel building, which is now under construction, soon will be ready to dedicate. The University of Redlands, which recently was recognized by the Association of American Universities, has a total enrollment this year of 550 students.

## Historians Will Hold Annual Meet

The annual meeting of the Orange County Historical society will be held Monday night, January 31, at 7:30, in the Ethel clubhouse, French and Seventh streets, Santa Ana, for the purpose of electing directors of the society for the ensuing year and for the transaction of such other business as may come before the meeting.

The following program will be carried out:  
"Spanish Song," by Miss Louise Montgomery.  
"Pioneer Women of California," by Mrs. Flora D. Scheneman, secretary of the Landmarks club.  
"The Portola Expedition," Don Meadows.

## PAIR FINED ON BOOZE CHARGES AFTER WRECK

Following the wrecking of their automobile in a ditch near the school house in Cypress, yesterday afternoon, one man was arrested on a charge of possession of intoxicating liquor and another on a drunk charge by Deputy Sheriff C. L. Barnett.

Both pleaded guilty in Justice Kenneth Morrison's court early today and were fined.

W. M. Montgomery, 28, 531 Walnut street, Long Beach, charged with possession, was fined \$500, with an alternate of spending one day in jail for every dollar of the fine, and Joe Martin, of Long Beach, was fined \$50 on a drunk charge.

In court today, Montgomery declared that he was not the driver of the machine at the time the car was wrecked in the ditch.

"How did the accident occur?" Justice Morrison asked.

"Well, your honor, I was trying to pass another car and I had to go in the ditch to keep from hitting a truck coming from the opposite direction," Montgomery answered.

"I thought you said you were not driving the machine at the time," the court remarked.

"I wasn't," Montgomery said. "Then I think you used the first person too strongly. Frankly, I do not believe your story," Morrison said.

1 lb. Golden State Butter and 1 carton Golden State Cheese for 63c. D. L. Anderson Co., 115 East 4th.

## OKLAHOMA JUDGE MAKES HOME HERE

To make his home in Santa Ana, Judge Samuel A. Cordell, of Chandler, Lincoln county, Okla., has arrived here and taken up his residence at 408 East Third street.

Judge Cordell has come to California to live after residing in Oklahoma for 35 years and after having visited the Golden state five times previous to making his permanent home here.

"I don't think I shall open a law office here, at least not at the present time. I need a long rest first," he said, when asked concerning his business plans.

Judge Cordell occupied the Lincoln county bench for 10 years and, prior to that time, was a state senator from Lincoln county, from 1907 to 1910. He practiced law in Arkansas before moving to Oklahoma.

## Coolidge Favors Development of Boulder Project

WASHINGTON, Jan. 25.—President Coolidge favors immediate development of both the Muscle Shoals and Boulder dam projects, Representative Snell, Republican, Illinois, chairman of the house rules committee, said, after conferring with the president in an effort to hasten action on bills affecting the project.

## Betrothals Weddings Receptions

### Symphony Orchestra Featured on Ebell Program

Music and its charms offered one of the year's outstanding programs yesterday at Ebell clubhouse, where members had the privilege of hearing orchestra selections, vocal and instrumental solos, such as could not be surpassed in any city of the United States. For Ebell society's program committee presented the city's own symphony orchestra as the final January entertainment event, thus giving members and guests an afternoon of true enjoyment.

A few business matters were considered in the brief session presided over by Mrs. S. W. Stanley, and then the remainder of the time was given over to the musicians.

Owing to the difficulty of members of the orchestra getting excused from school and duties in early, the program was given in two sections, soloists appearing first and the orchestra being featured in the second instead of having solos interspersed with the ensemble numbers.

Capable Committee  
Tone Tunison Peek was accompanied for the soloists whose work was quite as wide in its range as was that of the orchestra. In the finished program it seemed that even the most captious musical critic could find something to please his taste.

Edward H. Burns, with Mrs. Peek, presented the first number, "Romance," as a cello solo. Rich and full, his tones gave the beautiful composition all the charm and delicate nuances which mark it. "Nocturne" by Burgmüller was his second selection with a softly minor strain.

It was an interesting feature of the afternoon that Mrs. Slabaugh in her vocal group, should also choose a "Nocturne," the lovely and melodious "Night" by Curran.

Added Cello Number  
As an added number, Mr. Burns delighted his audience with "Danse Rustique" by Squirres, with its airy tripping measures. Later in the afternoon he played Massenet's "Melodie" so beautifully that it was one of the supreme features of the event.

Many of those who heard Mrs. Slabaugh, declared that she had never been in more beautiful voice. The rich contralto tones, especially beautiful in "Songs My Mother Taught Me," and one felt that they could listen to the luscious voice and song forever.

**Contralto Soloist**  
The Aria from "Nadeshda" (Goring Thomas) My Heart Is Weary" was strong and vivid, her voice responding perfectly to the exactions of its range and mood. A graceful and vivacious little number was her "Better to Love," and sharply contrasted with the heavier numbers of her share of the program. Mrs. Peek's accompaniment was a perfect background upon which her songs were embroidered.

The same might be said for the trombone numbers presented by D. C. Cianfoni, founder and director of the orchestra, for he and Mrs. Peek offered a share of the program with no preliminary rehearsal, and yet gave a smooth and flawless rendition of two unusually beautiful selections, "Carmelita" by Penn and Carrie Jacobs Bond's "End of a Perfect Day." The maestro's skill on the trombone is familiar to all his townspeople, as is his directing ability, for everybody concedes that he has done a remarkable thing in drawing together some of the city's musicians to form an orchestra that is second to none, considering its youth.

**Conductor's Musicianship**  
None could question Cianfoni's musicianship who heard the orchestra yesterday afternoon and saw the marvelous manner in which it responded to the director. The program was a varied one and it was a difficult thing to try to select any outstanding number, for it is the magnificent passages of the "Hungarian Lustspiel" by Keler Bela had strong appeal for one, another might like better the dreamy passages and exquisite shadings of the Strauss waltz, "Tales from the Vienna Woods," or the strange arresting qualities of "Solvelig's Song" from the Peer Gynt Suite by Grieg; and the wailing notes of "Aria Death" from the same suite.

A graceful "Mineuette" from Bizet's "L'Arleienne" was also included on the program which ended with perhaps the most brilliantly executed selection of all, Brahms' "Hungarian Dance," in which each instrument and group of instruments, seemed to leap in response to the director's wand, and shower beautiful notes and exotic melodies on the air.

**Future Plans**  
In a short interview with the conductor following the concert, were disclosed future plans for orchestra programs which he announced that he had much new music coming, and that through the medium of the orchestra, he planned to make the city thoroughly familiar with the work of the best composers. He has much of Brahms, Mendelssohn and other masters which he will present on future programs. This is all the more interesting when one reflects on the extreme youth of some of the players, and allows a thought to dwell upon their musical future, surrounded by such an atmosphere.

At the close of the afternoon, came the tea hour in the peacock room presided over by the courtesy committee with Mrs. J. E. Gowen assuming the leadership in place of Mrs. S. W. Nau, soon to depart on an extended ocean trip. Members received during the year were honor guests at the attractive affair with its friendly spirit.

The heart of a vegetarian beats, on an average, 58 times a minute; that of a meat-eater, 75 times.

### S. A. Woman's Club to Celebrate Birthday With Luncheon

Anticipated as the outstanding event of the year by members of Santa Ana Woman's club, the annual birthday luncheon will be held this year on Tuesday, February 1, in the usual place, St. Ann's Inn, where hospitable doors have opened to the members for several years, as the anniversary recurred.

Elaborate plans are being made by the president, Mrs. W. S. Chandler, and the committee she appointed some time ago. Luncheon will be served at 12:30 o'clock, and a number of guests will add the members in making the club's twenty-seventh birthday, a happy event.

Mrs. C. S. Dunphy, Mrs. Jack Taylor and Mrs. Asa Vandermast will act as the hospitality committee to greet guests and make any necessary introductions, as the crowd assembles in the Inn foyer.

The luncheon menu has been selected with care by a committee composed of Mrs. Walter Myers, chairman, Mrs. H. D. Miles, Mrs. Ella Webster and Mrs. Charles Hoehn, and it is safe to assert that Manager Robert L. Bisby will offer his best for the enjoyment of the clubwomen.

Table decorations will be in charge of Mrs. S. L. Wedgewood, chairman, Mrs. Albert Fuller, Mrs. Martha E. Ritchey and Mrs. Worth Alexander. The club's chosen colors of violet and white will be in evidence wherever possible.

In the interval following luncheon, an entertaining program will be presented under the direction of Dr. Evalene Pee and a committee composed of Mrs. M. C. Williams, Mrs. William Whitehead and Mrs. George Klever.

**Pastor's Wife Is Honored on Birthday**  
The birthday on Sunday of Mrs. William Schmook, 816 Brown street, wife of the pastor of Trinity Lutheran church, was celebrated in happy fashion that afternoon, much to the surprise of the honoree. For women of the church had planned the event as a surprise to Mrs. Schmook, who was sitting quietly in her home, enjoying Sunday afternoon with husband and family when the guests arrived in a body.

They had gathered in the assembly hall of the church until about 70 men and women of the congregation were present. Proceeding to the home, and springing their surprise, they presented Mrs. Schmook with a handsome silver cake plate as a birthday gift and asked her and her family to join them in the assembly hall.

An afternoon of games and music followed and at its close, sandwiches, delicious home-made cake and coffee were served.

### CHURCH SOCIETIES

**Spurgeon Missionary**  
Members of Spurgeon Missionary society were delightfully entertained at tea Friday afternoon at the home of Mrs. Harry Gardner, 1325 Cypress street. The meeting opened with the hymn "Happy Day," followed by brief prayer by Mrs. Law.

Devotionals were led by Mrs. Dooley and Mrs. Hunter; Mrs. Dooley taking her subject from the second chapter of Ruth and giving an excellent talk. Mrs. Hunter as her portion of the devotionals touched on the writings of Paul in a very interesting manner. This was followed by a musical program; Master George Miles played a piano solo, "Sonata in G Minor" (Beethoven). Glen Gardner, accompanied by his mother at the piano, sang "Be the Best of What-You Are" (John Barnes Wells) and as an encore, "Fate."

Miss Lois Green gave a reading, "One Afternoon." As the final number, Mrs. J. V. Connett sang a beautiful selection, "If I Knew."

Refreshments of sandwiches, hot chocolate and wafers were served by Mrs. Gardner and her hostess committee.

**Young People's Class**  
Last Saturday night the members of the Young People's class of the Brethren church, met at the hospitable home of their teacher, Arno Finster, 1520 French street.

Early in the evening a business meeting was held by the class president, Moody Chrook, and a committee was appointed to arrange a picnic to be held later. The remainder of the evening was devoted to games, contests and singing. In the contests, David Crist took first prize and John Dunlap was consoling.

At the request of a number of the guests, Mr. Finster graciously played several piano selections and before they departed they were favored with a piano duet by Mr. and Mrs. Finster.

Late in the evening delicious refreshments were served to the host and hostess, Mr. and Mrs. Finster and their guests which included the Misses Iva Carl, Vivienne Wynne, Dolma Lynch, Grace Lehman, Catherine Crist, Vera Bowman, Dorothy Bowman, Ada Teiter, Viola Dyer and Leta Lehman and the Messrs. Moody Hollis Schrock, Wilmer Long, Paul Wine, Alfred Loersch, David Crist, Orville Valentine Long, Lee Gross and John Dunlap.

Most of the dogs used in vaudeville acts are mongrels. Showmen say they are smarter than thoroughbreds.

Tuesday is considered an unlucky day for weddings in Spain. There are 4000 muscles in the body of a moth.

### Past Club Presidents Enjoy Luncheon in Gold Room

One of the happiest affairs of recent date was the getting together of past presidents of Santa Ana Woman's club, who were luncheon guests of Mesdames M. J. Marks, G. J. Mosbaugh, Frank Ey and Sarah E. Griffith, in Ketter's gold room.

Fragrant sprays of double jasmine were used in combination with the tables where guests were seated. At each place were clusters of violets to offer the club colors. All enjoyed the appetizing luncheon menu served.

In the afternoon which followed, election of officers was of first importance and Dr. Evalene Pee was selected to serve the past presidents as their president. Mrs. Mosbaugh will assist her as vice president; Mrs. Lovisa Leslie, as secretary, and Mrs. Katherine Clark, as treasurer.

The remainder of the afternoon was devoted to social chat and plans for future work of the general club. It was regretted that a number of the past presidents could not be with them, especially Mrs. Elizabeth Mills, recognized as "club mother," but whose illness made it impossible for her to attend.

Those enjoying the hospitality of the four hostesses, Mesdames Marks, Ey, Mosbaugh and Griffith, were Mrs. Ruth Tiffany, Dr. Evalene Pee, Mrs. I. D. Annis, Mrs. Katherine Clark, Mrs. Lovisa Leslie, Mrs. P. L. Toole, Mrs. Mary E. Stanley, Mrs. F. H. Finney and Mrs. Walter Moore.

### ANNOUNCEMENTS

The January meeting of Lincoln P-T-A will be held in the kindergarten room of the school, Thursday night, January 27 at 7:30 o'clock. The program will be furnished by pupils of the 6A grade, it being their graduation before going to junior high. W. S. Kellogg, principal of Frances Willard school, will be the speaker of the evening. There are a number of beautiful pictures on exhibition at the school all this week. These pictures are painted by some of the best known Laguna Beach artists, and it is hoped that all interested in art will put forth an effort to see them. The mothers of the 6A grade will serve refreshments.

**Ebell's Third Travel section** will meet at the clubhouse Friday for a one o'clock luncheon. Following the luncheon Mrs. J. Edmund Snow will discuss "Water Waste of Canada." Those unable to attend are asked to phone Miss Preble Drake at 1203.

**First Baptist Philatheas** will hold their January party tonight at the home of Miss Gertrude Minor, 131 West Nineteenth street where the evening's program of pleasure will begin at 7:30 o'clock.

**Fourth Household Economics** section members of Ebell society through a misunderstanding of a first announcement of their bridge party in February, on a date that has since been changed and the party has now been definitely set for Thursday, February 17. Bridge alone will be played as it has been discovered that other games are so little in demand that it is scarcely worth while to plan for them. The party promises to be an outstanding social event of the month as the section's hospitality is widely recognized and bridge players feel assured of a pleasant afternoon.

**St. Elizabeth guild of the Church of the Messiah** will meet tomorrow night, 7:30 o'clock, at the church where members will arrange plans for the rummage sale which will be held Thursday and Friday at Anderson's old store. Anyone who has anything to donate is requested to bring it to the church Wednesday so that the guild members may arrange it Wednesday night.

In Russia, there are several farms where horses are raised for making violin bows from their hair.

### Birthday Dinner Has Nonagenarian for Honoree

Seldom is an anniversary dinner given to honor the ninety-first birthday of a guest, but such was the case Saturday, January 23, when Mrs. Luther Kellogg, of 119 Orange avenue, was 91 years old, and in celebration of the event, was honoree at a delectable noon-day dinner at the home of her son, J. E. Kellogg, 603 Orange avenue.

It was made a very happy occasion not only for members of the family but for a few friends who were fortunate in being admitted to the family circle for the event. Many flowers, sent by loving friends, brightened the occasion as did countless cards and messages of greeting and congratulation.

Place of honor at the table was accorded Mrs. Kellogg who, seated with gracious charm, presided over the board were the hosts, Mr. and Mrs. J. E. Kellogg and son George, Miss Rosaline Kellogg whose home is with her mother, the honoree; Mr. and Mrs. C. E. Kellogg of Long Beach; Dr. and Mrs. Thomas S. Blair and Mrs. J. B. Stewart.

Mrs. Kellogg, the honor guest, is a remarkable woman, beloved by all her friends and active in all church affairs. She is a never-failing attendant at Sunday school and church each Sunday and at the missionary meetings in the mid-week. All her friends unite in wishing her to continue brightening the orbit on which her path runs, until long past the century mark.

### Spanish Luncheon Draws Local Guests

Yesterday's al fresco luncheon in San Gabriel where friends and patrons of the famous Mission play were entertained beneath the spreading grapevines of the famous spot by John Steven McGroarty, California's beloved author, was enjoyed by Miss Beulah May and Mrs. William Cummings of this community.

The Spanish note was sounded in all details of entertainment, beginning with the menu of Spanish dishes served by young Mexicans and Spaniards. In the afternoon music and dancing were presented by talented young people in charming costumes, and a survey of the new playhouse, still uncompleted, was given by the host. An important part of the program was one of the most delightful features, for Alice Gentle, famous California operatic singer, in her enthusiasm, stepped on a chair and allowed the golden notes of her voice to soar in the air in such numbers as "Habenera" and "Estrellita."

### Group of Boys Share Joys of Birthday

The pleasant home of the W. R. Sylvesters at 428 West Santa Clara avenue, wore its most attractive aspect Saturday evening in greeting to a group of lads bidden to a dinner party in honor of the birthday of Billy Sylvester, fourteen-year-old son of the home.

The boys found places at the dinner table by means of gay cards which added to the decorative effect of flowers and bright lights. In the center of the table was a great birthday cake bearing fourteen candles, which was served with ices for the dessert course.

Enjoying the birthday feast with Billy were Ed Farnsworth, Guy Purinton, Neil Parcer, Euster Anderson, Bob Fann and Horace Endor. The evening was then devoted to games, with Mrs. Sylvester extending friendly hospitality to her son's young friends.

### Garden Grove Wedding Of Local Interest

Miss Allie B. Clark, daughter of Mrs. Hattie Clark, of Garden Grove, and Homer Roland McDaniel of this city, son of Mr. and Mrs. Joe McDaniel of Anaheim, were united in marriage at the home in Garden Grove of Mr. and Mrs. M. B. Allen, on Sunday afternoon at 3 o'clock.

The Rev. W. M. Reuter, pastor of the Garden Grove Baptist church performed the ceremony.

The couple was attended by Miss Florence Stark and Norris Chaple of Los Angeles. The bride is a native of Garden Grove and a graduate of the union high school of that place. The groom is employed by the Richards Express company of this city. He was recently discharged from the U. S. navy, where he served four years. At the close of his term, he had reached the rank of first torpedo man on the U.S.S. Idaho.

Following the ceremony dinner was served at the home of the bride's mother. The occasion also being the birthday anniversary of Mrs. Clark. Covers were placed for Mr. and Mrs. McDaniel, Miss Florence Stark, Norris Chaple, Ben Chaple, Loris Clark, Miss Hattie Clark, Walter and Luella Clark and the hostess.

McCook field, the army aviation field at Dayton, O., is situated on almost the exact spot where the Wright brothers conducted their first experiments in aircraft.

Giving you in 1927 a dash of what you were in 1917

What are years anyway but dates on the calendar—that you don't have to keep unless you want to.

And it's easier to court delicious youth than desolate old age.

The reason men look old isn't as much "cares" as it is "don't cares."

Your clothes can keep the secret that you are "getting along" without giving the impression that you are getting childish.

A man is only as old as he seems in the seams of his clothing and Hill & Carden's with super-value suits can give you what Ponce De Leon failed to find.

# BOARD ORDERS FILLING IN OF SOUTH FLOWER DRAIN GUTTER

Residents Complained That  
Ditch Depreciated Values  
Of Properties on Street

## OVERFLOW COVERS ROAD DURING RAINS

Petition Urges Councilmen  
To Give Policemen, Fire-  
men Increase in Salaries

The city council last night directed the city engineer and street commissioner to at once initiate steps for filling in the drainage gutter on the east side of South Flower street, between Fairview avenue and Edinger street, to correct a condition against which residents recently complained.

The drainage ditch was put in to carry storm waters from a large area north of Fairview avenue. Residents last week complained to the council that the ditch created a condition where automobiles, driven in and out of private drive-ways, were liable to damage. It also was asserted that the value of property within the street district has been depreciated by existence of the ditch.

**Of Little Service**  
Investigations revealed to City Engineer Clyde Jenkins and the council that the ditch was of little service in taking care of the storm waters, as during rain storms the waters overrun the ditch and spread over the street. It is estimated that the cost will approximate \$840. The city will do the work and pay the bill out of traffic fines.

The council also directed the filling of the drain gutter on the east side of South Main, at Edinger. It is estimated that this will cost \$100. Ordinances, calling the city election for Tuesday, April 11, and fixing the salaries of city officers, were given their first readings and referred back to the city attorney. The salaries were not designated in the ordinance, but will be entered before the document is given its second reading, preparatory to adoption. It was intimated that the ordinance will provide a salary of \$25 a month for members of the board of education. A petition, signed by 67 business men, urged an increase in the salaries of policemen and firemen.

**Street Improvement Plans**  
Plans and specifications were adopted for improving Oxford street and approval was given a resolution providing for the abandonment of a portion of Greenleaf street.

The mayor and city clerk were authorized to sign a three-year contract with the American Outdoor Advertising company for the location of 42 or more waste paper receptacles on the streets of Santa Ana. The company will pay a tax of \$1 a month for each receptacle.

The city clerk was instructed to advertise for bids for supplying the street department with gasoline for a year.

Following a verbal protest by A. E. Noe to reported plans of the lot owner to erect three small cot-

(Continued on Page 8)

## EDITOR

Miss June Goodwin, Santa Ana girl, appointed editor of The Don, weekly newspaper in the Santa Ana junior college.

## JUNE GOODWIN NEW EDITOR OF COLLEGE PAPER

Girls make good editors.

The new chief scrivener on the staff of The Don, weekly newspaper in the Santa Ana junior college, is a Santa Ana girl, Miss June Goodwin. Her appointment was announced today by Theodore Jesse, commissioner of publications, to fill the position left vacant by the resignation of Raymond Gris, editor during the last semester.

Co-ed students in the high school and junior college rapidly are becoming prominent in journalistic activities. The editor of the Santa Ana high school Generator is a girl, Miss Eleanor Turner.

Miss Goodwin has been assistant editor on The Don. Last year she was on the college paper staff and the year previous she was assistant editor of the Santa Ana high school Generator.

No other staff changes will be made, Jesse said.

During Gris's term, several new policies were introduced. The most outstanding was one advocating the adoption of an honor system. The stand of the paper on these policies will be the same as in the past, Miss Goodwin said.

The paper, now on a sound financial basis, something unusual for the college publication, will be made attractive with art work, the new editor said. The Don now is ranked as the best paper published by a junior college in Southern California.

## CHORISTERS WILL REHEARSE TONIGHT

The Y. M. C. A. Choristers will meet at 7:45 tonight for rehearsal. The president of the organization, Chester E. Hawk, announces that a few more members can be accepted if they apply at once. The Choristers will make their next public appearance Tuesday night, February 4, when they will furnish music for the annual dinner of the Y. M. C. A. The speaker for the annual dinner program will be Harry N. Holmes, of New York City.

(Continued on Page 8)

## CONDITIONS IN MEXICO TOLD WOMEN'S CLUB

Mrs. Clara Cushman Tells  
Her Impressions, Gained  
On Visit Below Border

Mexico from a decidedly intimate viewpoint was glimpsed yesterday by Business and Professional women at their noon meeting at St. Ann's Inn, when they had the pleasure of hearing one of their number, Attorney Clara Cushman, talk on her month spent in that country in mid-winter.

In addition to Mrs. Cushman's talk were several matters of club business and also the introduction of guests. The latter included Dr. Lela J. Beebe, who each Monday addresses the young mothers of the Mothers' Educational center, conducted by Dr. Margaret D. Baker, Miss Helen Woodworth and others interested in child welfare. Dr. Beebe devoted a few minutes to explanation of the Shepherd Tower bill, to the interest of her hearers, who expressed the hope that she might talk to them more fully some Monday in the future.

Miss Louise Kaiser announced her program committee for February as Miss Lula Ott, Mrs. Clara Brucke, Miss Effie White, Miss Gurr and Miss Elaine Wharton.

**Describes Mexico City**  
Mrs. Cushman then was introduced and opened her talk with explaining how her trip to Mexico was her first experience in a foreign land, so that her impressions were fresh and her reactions vivid.

Reaching Mexico City and remaining there over night, she described her awakening the following morning to the familiar sound of a rooster crowing and going to the windows to look out upon the strange sight of roofs, where much of the family life seemed to be lived. Even goats and chickens seemed to have their places on the roofs, she declared.

The architecture of Mexico was disappointing to Mrs. Cushman, who said that she felt like they had borrowed the most inappropriate of American designs to put onto the original Spanish. However, in the mining district, she discovered a novel and artistic effect in roofs whose tiles and sweeping lines were strangely reminiscent of English cottages, imposed upon true Mexican adobe houses. Years ago Welsh miners came to that section and the roofs were their offering to the local architecture.

The geographical contour of the country was commented upon, as well as national characteristics, especially the prevailing love of music. One thing that gave Mrs. Cushman much enjoyment was the love for romantic shop names, which approached the Oriental. "Fountain of Delight" was emblazoned above a shabby little butcher shop, while shops where pulque (intoxicating drink of Mexico) was sold bore such fanciful names as "Place of Delight," "Moment of Joy," etc.

**Poverty of Natives**  
Life in Pachuca was described and the speaker declared that foreign settlements have their conditions at home, with bridge and golf sharing honors as favorite pastimes. The churches she found

(Continued on Page 8)

## CENSOR BOARD FOR SANTA ANA SHOWS ASKED

Pastors Object to Jokes  
By Theater Performers  
And to Scanty Costumes

Protection of public morals through means of censorship of public entertainments, week-day religious education, plans for holding Easter sunrise services, endorsement of the "Good Will Industries" and arrangements for the Christian Endeavor convention, to be held here next June, were among matters taken up at the monthly meeting of the Santa Ana Ministerial association, held yesterday afternoon at the Santa Ana Y. M. C. A.

Stressing the need for effective censorship, references were made to recent performances by young girls on the vaudeville stage, which, the ministers thought, were not conducive to good morals. Particular exception was taken to scanty dress of certain performers and to alleged indecorous dancing. Jokes, in which improper references are made to divine characters, came in for their share of criticism.

**To Appear Before Council**  
Following some discussion on the subject, it was decided to lay the matter before the city council, with recommendations that a new board of censors be appointed.

Mason Youd, president of the Santa Ana Junior Chamber of Commerce, appeared before the association with a proposal for holding Easter sunrise services on Lemon Heights. According to the chamber officials, the Santa Ana Boys' chorus, sponsored by the junior chamber, would take a prominent part in these services.

The Rev. F. T. Porter, pastor of the Christian church, and the Rev. Otto Russell, pastor of the Baptist church, were appointed a committee to confer with the chamber officials regarding further arrangements.

**Winterburn Speaks**  
The activities of the "Good Will Industries" were explained by J. Winterburn, local secretary of the organization. The association voted to endorse the movement.

Discussing the program outlined for the coming state convention of the Christian Endeavor, to be held here, June 22 to 26, the ministers voted to extend all possible cooperation to the committee in charge of arrangements and to arrange their services so as not to interfere with the convention activities.

**Theft of Pepper Weevil Traps Is Charged to Boys**  
Criminal action against two youths, charged with stealing three screen experimental traps from the Santa Ana river bed, in Santa Ana Gardens, is threatened by J. C. Elmore, U. S. bureau of entomology, Alhambra.

The traps were being used in the study of the pepper weevil and were staked to the ground, according to a report filed at the sheriff's office. Two of the traps were stolen last week and the third was removed Saturday night, it was said.

A number of pepper weevils were allowed to escape with the removal of the traps according to information obtained by D. D. Adams deputy sheriff.

(Continued on Page 8)

## MADAME ROBBIA, TEMPERMENTAL PRIMA DONNA, ADDS HUMOR TO COMMUNITY PLAY

During the working-out of the plot of "Enter Madame," sparkling comedy drama which will open in the Temple theater, next Tuesday night, Santa Ana Community Players will enact many such scenes as the one pictured above. In this one, "Madame Della Robbia," temperamental prima donna (Mona Summers Smith) is surrounded by those much affected by her flashes of temperament. Kneeling at her side is her son, "John Fitzgerald," while Miss Ethel Osterman, as the secretary, "Miss Smith," and Val Clark, as "Archimede," the chef, lend attentive ears and willing hands.

## VALLEY IRRIGATION COMPANY, NEAR END OF LEGAL LIFE, TO TAKE REINCORPORATION STEPS

The span of legal life of the Santa Ana Valley Irrigation company is nearing its end and, if it is to continue as one of the potent factors in the upbuilding of the Santa Ana valley, renewal of incorporation papers will be necessary by August 6, 1927, according to announcement today by Ozro Mansur, secretary of the company.

The statement of the secretary was incidental to announcement that the annual meeting of stockholders of the organization would be held Tuesday, in the office of the company, in Orange. Stockholders of the company will be advised at the annual meeting that steps must be taken to file new articles of incorporation, it was said.

Directing attention to the fact that the corporation papers were completed on Aug. 6, 1927, the secretary said that capitalization was for \$100,000, with an issuance of 20,000 shares, at \$5 each. He pointed out that the stock today is valued at approximately \$155 a share, or an average increase of \$3 a share a year.

The first board of directors consisted of Albert B. Clark, president; James Huntington, Nathan Fletcher, W. C. McClay and Dr. F. Greenleaf, while the first secretary was J. W. Anderson.

Organization of the company was the first ambitious attempt of the then residents of this community for co-operative effort in diverting water from the Santa Ana river to the lands of the Santa Ana valley susceptible of irrigation from that stream.

**Now Have Elaborate System**

## ANNUAL SCHOOL MUSIC MEMORY CONTEST WON BY JEFFERSON

Win Cup Awarded by S. A.  
Stores for Highest Number  
of Perfect Scores

MRS. F. H. BEESON  
PRAISES STUDENTS

All Classes Made Splendid  
Showings in 1927 Competition,  
Asserts Director

Jefferson grammar school won the cup offered by Santa Ana music dealers in the 1927 music memory contest, Mrs. F. H. Beeson, director of music in the Santa Ana schools, announced today, following receipt of the decisions from the judges.

The music memory contests were held in the various grades and schools last week, on numbers presented the students during the semester in their music appreciation lessons.

"All the schools made splendid showings in the contest this year," Mrs. Beeson said. "In some classes, in different schools, every member succeeded in making perfect scores."

The school making the highest percentage of perfect scores wins the cup, Mrs. Beeson explained. The loving cup was presented by the Shafter, Friby, Foster and Barker and Street music stores.

Jefferson school won first, Spurgeon school, second, and McKinley school, third.

The second, third, fourth and fifth grades in Jefferson school made perfect scores, each student being able to recognize the name of each piece and being able to name its composer. Only a few students in the first and sixth grades were not able to make perfect scores. Through the music memory contest each year, students obtain good backgrounds of classical music by the time they complete the sixth grade, the music supervisor said.

The teachers in Jefferson school are Miss Gertrude Streets and Miss Pauline Zolman.

**A Check is a Legal Receipt**

And a First National Check Carries Prestige

It is safest, of course, to pay by check. Almost everyone knows that, and there are few people who fail to take advantage of this modern, convenient way.

The record of your checks on the stubs also gives you a certain definite line on where your money is going—a simple bookkeeping system.

But there is still more. Just as the name "First National" conjures a picture of an old, safe and conservative bank in any city you may happen to be, so does a First National Bank check carry the accompanying prestige.

**Resources Over \$11,000,000.00**

**Deposits Over \$9,000,000.00**

**Capital and Surplus Over \$1,200,000.00**

**First National Bank of Santa Ana**

**gentlemen prefer dobbs!**

BECAUSE Dobbs Caps are made on the principle that a cap must appear as a distinctive addition to a man's dress or there's no particular reason for wearing one other than for comfort. Besides being of exclusive woollens, Dobbs Caps have the Auto-Tire Visor, are unbreakable, indestructible, waterproof.

Ordinary caps are \$2.50—Dobbs Caps are \$3.50.

**Lathrop School Receives Trophy**

The silver trophy cup awarded the Julia C. Lathrop junior high school for having the largest number of bicycles in the "Safety First" bicycle first bicycle parade, conducted recently in Santa Ana by J. Howard Rodda, was received yesterday, according to Principal H. G. Nelson. The cup will be placed on exhibition in the school with other trophies.

**EXACTLY SUITS ELDERLY PERSONS**

There is a sound therapeutic reason why Foley's Honey and Tar Compound for coughs and colds is especially suited to the needs of elderly persons: because it contains no chloroform, or opiates to cause constipation (that bug-bear of advancing years) and to try up the natural and necessary secretions. Mildly laxative, wonderfully soothing and healing to the irritated area, Foley's Honey and Tar Compound quickly stops all coughs and throat irritations, lingering "flu" coughs and disturbing night coughs. Is exactly suited to the needs of elderly people. Ask for it. Sold everywhere.—Adv.

## S. A. IRRIGATION COMPANY MUST REINCORPORATE

(Continued from Page 7)

main canal from the river to the territory to be irrigated was a crude affair compared with the elaborate system which has since been built up, virtually every ditch owned by the company now being of cement or either the open or pipe type.

In the early days of the history of the company, water was plentiful, but today the demand, as a rule, is in excess of the supply, even though the river flow is substantially augmented by a number of wells the company has sunk in the Santa Ana river.

Operation of the company has been successful from the start. Direction of affairs always has been in the hands of a board of directors, elected from the shareholders, and a check of records reveals that members of the various boards always have been devoted, themselves, almost exclusively, to the farming, confidence of stockholders in the men responsible has been evidenced on many occasions, when boards have been continued in office for successive years because quorums could not be procured for annual meetings.

It has been approximately 10 years since a legal annual meeting has been held and three of the five men who now comprise the board have been appointed. A. N. Saxton, president, and W. A. Greenleaf are the two men who are officiating by virtue of election. I. L. Marchant, A. M. Robinson and C. A. Palmer, the other members, are appointees.

Pointing to this situation and to the impending end of the legal life of the corporation, the secretary said today that stockholders should make it a point to attend the annual meeting, next Tuesday, in sufficient numbers to constitute a quorum.

It was the opinion of the secretary that a letter later would be issued, asking stockholders to come into the office and sign papers necessary for reincorporation. He said that two-thirds of the stockholders would have to give their consent. If shareholders fail to respond to the notice to appear at the office, a committee will be appointed to make a personal canvass to secure the necessary signatures.

So far as the secretary is advised, the board of directors has no new improvements contemplated for suggestion to the shareholders present at the annual meeting.

For the first time in "many moons" the company has more water than demand, with the result that a portion of the river stream is flowing past the diversion dam in the river. Seven heads are being distributed through the system. The condition is the result of the recent rains. It is anticipated that general irrigation will be resumed in two or three weeks, when irrigation water will be in big demand.

## SPEAKER TELLS OF VISIT TO MEXICO

(Continued from Page 7)

interesting, but depressing view of the endless stream of black-garbed women stopping to pray. Street markets reflected the poverty of the natives, for in their picturesqueness it was found that half a turnip, a leaf or two of lettuce or some similar small bit of fruit or vegetable might be purchased, and frequently was, by the shoppers.

This poverty also was to be seen in the prevailing custom of renting, for a few pesos, a coffin, which after having been used to convey a body to the cemetery, was returned to its original owner, perhaps to serve the same purpose many times over until it was used for his own funeral.

Mrs. Cushman declared that one of the most enlightening and valuable books ever written on Mexico and one to be found in almost every American library below the border, was Madame Calderon de la Barca's "Life in Mexico," written a number of years ago by the wife of the minister from Spain at that time. She advocated the club members reading the book for the most vivid and unbiased view of the country and its people.

On Wednesday night of this week, the clubwomen will meet with Mrs. Laura Murray, when "The Miracle" will be discussed from every angle, since many of the members anticipate going to Los Angeles and wish to be prepared with some knowledge of the production in order to enjoy it to the utmost.

Flower Street Drainage Ditch To Be Filled In

(Continued from Page 7)

tags on a lot on the northeast corner of Rosa and Nineteenth streets, the building inspector was directed not to issue a permit until the city council had passed on it.

Permission was given Bill Jones and the Platt Auto service for the installation of additional gasoline tanks at their respective service stations. A similar permit was given A. W. Sheats, 1105 West Fifth street, for a private tank.

Anticipating presentation of an application for permission to locate an oil station on the southwest corner of Washington avenue and Broadway, E. J. Nalsh and G. M. Lambert were present at the council meeting with a largely signed protest against granting the application. The application was not presented.

## EAT THE THEATERS

Laura La Plante, star of "The Midnight Sun," film at the West Coast-Walker theater.

**WEST COAST-WALKER**  
His suave, fascinating, Oriental mannerisms and handsome, clean-cut countenance have for years made Sessue Hayakawa among the most devastatingly attractive of all screen heroically attractive. In his current vehicle at the West Coast-Walker theater, which marks Hayakawa's first vaudeville appearance in Santa Ana, the versatile Oriental portrays the character of "Chang," a modern Chinese gentleman in Paris. The role admirably suits Hayakawa, who in every-day life is—as "The Silent Love" should be—a perfect gentleman, cultured and refined, yet secretly nursing the fires of passion within.

Clara Bow has joined the select circle enhanced by Thomas Meighan, Adolphe Menjou, Florence Vidor, Wallace Beery, Raymond Griffith, Bebe Daniels, Esther Ralston, Douglas MacLean, Pola Negri and Harold Lloyd, and is now a Paramount star. Her first production, adapted from Elinor Glyn's "It," is showing on the Yost Broadway screen.

And if you wonder why Clara has been raised to the stardom heights, a trip to see "It" will be convincing.

In "The Midnight Sun," now showing at the West Coast-Walker theater, Dimitri Buchowetzki, Russian director, has produced a great screen spectacle. It is a Russian story, staged in a lavish setting, filled with all the luxury and mysticism that marked the Russia of pre-war days.

Laura La Plante heads the featured players, portraying a dancing girl who has all Russia "at her feet." Pat O'Malley, as the Grand Duke Sergius, handsome in his many gorgeous uniforms, is an admirer of the dancer, but the hero of the story is young Raymond Keane, who, in this production, makes his first appearance on the screen.

The colorful ballet of jewels, in which more than 1000 principals and extras participate, is an outstanding spectacle. It has for its setting a reproduction of the famous St. Petersburg opera house.

On the stage, Fanchon and Marco present the "Mardi Gras Idea," with the Hollywood Beauties. Besides this bevy of feminine pulchritude in numerous and varied dance acts, specialty numbers are featured by individuals of the cast, including tenor soloists by Roy Smoot, an all-American football player who has turned to the stage.

## MURPHY'S THEATER

"Going Crooked," a comedy crook play in three acts by William Collier, is being played all this week by Murphy's Comedians at the Orana theater.

"Going Crooked" is well cast with C. William Booth and Martha Gibbs in the leading parts and regular members of the popular company of players in supporting roles.

The play includes an element of suspense, a pretty little love theme running throughout and some clean comedy.

## THIEVES STRIP 5 MORE AUTOS IN SANTA ANA

Adding to the already long list of automobile stripped of accessories and equipment in Santa Ana since the first of the year, five more car owners were victims of petty thefts last night, according to reports filed at the police station.

Police are confident that young boys are responsible for the many thefts reported and every effort is being employed by City Marshal Rogers to catch the thieves in the act of rifling machines.

A horn and two spotlights were stolen from a roadside owner by Hiale T. Barker, 830 East Chestnut street.

R. L. Carey, 103 East Myrtle street, reported that the keys of his machine were stolen from the car while it was parked in his driveway.

W. M. Huff, 1615 West Ninth street, reported the theft of a cushion from his automobile while the car was parked near Eighth and Broadway.

A tire was stolen from the car of Bert Bell, Hoffman apartments, while the machine was parked near 519 East Fifth street.

William K. Penrose, 1059 West Second street, had four keys and an overcoat stolen from his car while it was parked in front of his home.

## 'BEAU GESTE' DUE AT YOST ON FEB. 6

Welcome announcement to those Santa Ana film followers who for some time past have been familiar with the spectacular and sensational success of Paramount's big feature, "Beau Geste," during its current lengthy engagement at the Forum theater, in Los Angeles, is contained in the news that the adventurous and exciting film is to inaugurate on February 6, for five days, a visit at the Yost theater, where it will be shown twice daily.

"Beau Geste," made for the screen from Major Percival Christopher Wren's thrilling novel of the same name, met immediately with an enthusiastic and enduring following following its Los Angeles premiere, and now continues to be witnessed daily by audiences testing the capacity of the Forum theater.

The cast is a most popular and distinguished one, headed by Ronald Colman, who interprets the title role; Ralph Forbes, Neil Hamilton, Alice Joyce, Mary Brian, Noah Beery, Norman Trevor, William Powell and innumerable others.

## Evidence of Pine Growth Is Found In S. A. Mountains

(Continued from Page 7)

covered with pines. Here and there in the brush areas are remains of old trunks of pine trees. Examination of these old trunks gives proof that the trees were destroyed by fire.

The pines to be planted on the Santiago ridges February 5, through the co-operation of forest and county officials with the Orange County Farm bureau, the Boy Scouts, the service clubs and the irrigation companies of Villa Park and El Modena, are of a variety that are found in the heads of a number of canyons of the Santa Ana mountains.

"This pine," continued the ranger, "is known by many as the big cone pine. Another common name is the Coulter pine.

One Grove of Knob Cones "We have three conifers growing in the Santa Ana mountains. Besides the big cone pine, we have the knob pine. There is just one small grove—hardly a grove—of the knob pines. It is located in Ladd's canyon, near the top of the divide.

"The upper reaches of the canyons seem to be especially adapted to the big cone spruce, which is the third conifer now growing in and native to our mountains. The big cone spruce is a beautiful tree, individually and for forest purposes. In the head of the Trabuco canyon and on the slopes of Los Pinos peak is a fine grove of about 150 acres of big cone spruce, pronounced by experts, who have seen it, as the best 150 acres of big cone spruce in California."

Stephenson said that the forest service is eager to co-operate to the fullest possible extent in plans for reforestation.

Uric acid solvent. Superior liver medicine.

Trunk's Prescription, sells for \$1.75 or 2 for only \$3.00 at drug stores like Griggs & Cannon, and Kelley's Drug Store—Adv.

## MEXICANS JAILED ON BOOZE CHARGE

Charged with possession of intoxicating liquor, Manuel Martinez, 35, and Jesus Esquivel, 33, Santa Ana, Mexicans, were arrested last night on McFadden street by Officers Adams and Barnard.

The men were placed in the county jail and probably will be given a hearing this afternoon before Judge J. P. Talbot, in police court. A small amount of liquor was said to have been found on the men at the time of their arrest.

Records show that Esquivel was arrested on a possession of liquor charge on January 10, this year, for which he was fined \$300, in Judge Talbot's court.

## The Public Forum

Communications under this heading must be signed by the name of the writer. These communications express the opinions of those who write them. The opinions may or may not be the opinions of The Register.

### SCHOOL MAN SEES NO NEED FOR TEACHERS' TENURE LAW

Editor Register:—Now comes that one J. M. Horton, of Fillmore, Calif., author of the questionnaire referred to in these columns on January 11, by one A. J. Cranston, supposedly of Santa Ana, Calif., and admits frankly that he is not in sympathy with the teachers' tenure law for many good and sufficient reasons.

He wishes also to emphasize that the same principle that governs teacher tenure governs the service status of most officials and employees in other branches of the public service, as Mr. Cranston states. Such a statement by a school man is all right for propaganda among those who will accept the statement without bothering to analyze it, but let us look it over and then you, readers, judge for yourselves.

In the first place, civil service was instituted to correct the conditions brought about by a change of political parties. It was practically all public servants, good and bad, were turned out to make room for partisans of the political party coming into office under the slogan, "To the victors belong the spoils." No such condition exists in the schools or ever did exist. On the other hand, schools should be conducted on business principles and according to the best business practices; and one of the best established business principles is that those who have to do the hiring of employees shall also do the firing. Harmony in any establishment is one of the most important factors, and this holds good even more emphatically in the schools than in business. A corps of teachers out of harmony is a poor example to exhibit to a lot of school children.

Those favoring the tenure law will wish to squirm away from such ideas as far as possible, but you readers will also take note that, in organization, the school system is very similar to business organizations and not at all like political organizations. In the first place, there is a board of trustees or directors. In the second place, a managing head or superintendent directly responsible to the board of directors, and in the third place, employees directly responsible to the superintendent. Now, dear reader answer to yourself whether

### OBJECTIONS ARE VOICED TO EXECUTIONS AS CRIME CURE

Editor Register:—The problem of crime has been the most difficult of all questions for human solution. It has been in the world ever since man has been here. The first record of crime, as accepted by Christian peoples, was the murder of Abel by his brother, Cain. But all along through the history of man has been the trail of human passion culminating in the murder of individuals or the more colossal murder of whole armies of thousands in war.

To combat this wholesale slaughter has been the everlasting struggle between the forces of good and evil—between those who labor for peace and those who kindle the fires of hate until the "dogs of war" are unleashed and a carnival of crime follows.

It has required the wisest statesmanship of the nations to hold in check the murderous and warlike elements and develop a fraternal feeling of brotherhood among the people.

The question of personal responsibility for the prevalence of crime throughout the country is one that comes close to the conscience of every thinking man and woman and clamors for solution. What can we do, what can I do? Will the killing of a murderer by the state prevent others from committing murder?

In this state, a number of executions have taken place in recent years, but they have not served as deterrents, for other crimes followed in their wake. The only

## SANTA ANA FRATERNAL AND PATROTIC ORDERS

### NEW OFFICERS INSTALLED BY FRATERNAL AID

Members and friends of the Fraternal Aid union gathered in M.W.A. hall, Friday night, in order to witness the installation of new officers. Mrs. Campbell, of the Orange Fraternal Aid union, was installing officer, and she was assisted by Mrs. J. A. Gardiner as guide and Mrs. Seales as musician.

The following named are the officers who were installed: Mrs. Schreff, past president; Mrs. P. Mitchell, president; Mrs. H. S. Pankey, vice president; Mrs. Willey Harris, secretary; Mrs. Minnie Harris, treasurer; Mrs. Alice Bouchee, chaplain; Mrs. Catherine Adams, guide; Mrs. Lillian Harris, captain; James Armstrong, inner guard; F. S. Warren, outside guard.

Mrs. Martha Schreff, retiring president, gave a short address, in which she thanked her officers for their co-operation during the last year. She presented each with a bouquet of roses. Later in the evening, everyone received a boutonniere from her. These last gifts were presented to the guests by little Miss Gardiner and Miss Krebs.

A musical program was given under the direction of Mrs. Frank Harris, chairman of the entertainment committee.

The refreshment committee, headed by Mrs. Henry Pankey, served supper in the dining room.

Guests of the lodge were Mr. and Mrs. S. O. Kern, of Long Beach; State Deputy T. J. Krebs and Mrs. Krebs, of Orange, and a number of members from other Southern California lodges. Mr. Kern is national vice president of the order.

### FOUR DEPARTMENT OFFICERS GUESTS

Department officers, who were guests of Calumet camp, U. S. V., Thursday night in G. A. R. hall, included Mr. W. S. Seller, department commander; Charles E. Dixon, senior vice department commander; A. C. Munson, department inspector; and E. E. Greene, department patriotic instructor. This was the first meeting of the new commander, Charles Kincaid, president.

The camp made plans for a monthly publication, the first issue of which will appear in the near future.

The 1927 department convention, which will be held in Santa Cruz early in May, was discussed. It is expected that several delegates will attend from this camp.

### HIGH PRIESTESS IS TO BE GUEST HERE

Mrs. Clara S. Helsenbuttle, supreme worthy high priestess, will be an honored guest, Tuesday night, February 22, when she makes her official visit to the White Shrine of Jerusalem. Plans for this visit took up a large part of last Wednesday night's business meeting, when the shrine met in El Camino hall.

Preceding the inspection, a dinner will be given in El Camino hall, at 6:30 o'clock, a large class of candidates also will be initiated at the meeting.

Following last Wednesday's meeting, a practice was held for the initiatory team and it was announced that another practice would follow the regular meeting, on February 2.

### Kiowa Tribe Will Hold Social Dance

Members of Kiowa tribe, No. 259, Improved Order of Red Men, are anticipating a large attendance at the second social dance to be held by the lodge this year. The dance will be held Thursday night, January 27, 8:30 o'clock, at M.W.A. hall.

SEWING MACHINES REPAIR-ED. Fix-It Shop, 105 E. 3rd St.

### Columbus Knights Attend Festivities

Santa Ana council, No. 1842, Knights of Columbus, will be represented by various members this week at the festivities marking the silver jubilee of Los Angeles council, No. 621, in its clubhouse, on South Flower street.

George Nash, Albert Watenberg and George Ravenkamp, of this city, were in Los Angeles Sunday when the day's program opened with a thanksgiving mass at St. Vibiana's cathedral. A class of 100 candidates was initiated in the afternoon and a banquet and entertainment were held in the evening.

Thirty-five of the charter members of the first council to be organized in Southern California were present.

Old-timers' night will be observed Wednesday evening at the clubhouse, when each of the charter members is expected to make a speech.

### REBEKAHS HOLD CEREMONIES OF INSTALLATION

Mrs. Florence Crawford, district deputy president, was installing officer, Saturday night, when new officers of Sycamore Rebekah lodge were installed.

These officers were Mrs. Bessie McDonald, past noble grand; Mrs. Jessie Overton, noble grand; Mrs. Hattie Peters, right supporter of the noble grand; Mrs. Ada C. Walters, left supporter of the noble grand; Mrs. Elizabeth Curtis, vice grand; Mrs. Bessie Stovall, right supporter of the vice grand; Mrs. Eva Boudreau, left supporter of the vice grand; Mrs. Eleanor Clayton, chaplain; Mrs. Grace Benjamin, recording secretary; Mrs. Hazel Ryan, financial secretary; Mrs. Lulu Davis, treasurer; Mrs. Edith Nelson, warden; Mrs. Teresa Dunning, conductress; Mrs. Clara Corner-brook, inside guardian; Mrs. Jennie Prevost, outside guardian; Mrs. Lillian Vinson, right altar supporter; Mrs. Murley Harrison, left altar supporter; Mrs. Grace Gross, musician; Mrs. Marie Bishop, Mrs. Florence Somerville, Mrs. Minnie Forman and Mrs. Marie Hammonk, inside guards; and Roger LaBalle, drill captain.

As special courtesy, the members of the Past Noble Grands association presented Mrs. McDonald retiring grand, with a huge bouquet of roses. Mrs. McDonald is the first new member of the association since its founding, less than a year ago.

Refreshments were served by members of the retiring staff. A number of talks were made by members and various guests.

### LOCAL SCOTS AT LODGE INSTITUTION

Many members of the local lodge of the Ancient Egyptian Order of Scots were present Saturday night at the institution of the new pyramid in Inglewood.

More than 1500 Scots from various Southland cities paraded in the greatest lodge event in the history of Centinella valley, according to Santa Ana, who attended.

The new pyramid has the distinction of having the largest number of petitioners or charter members of any Southern California pyramid. The number is 106.

### Scots' Theater Party Is Success

Members of the Ancient Egyptian Order of Scots have declared a success the theater party held by them Friday night, in the West Coast-Walker theater.

The party was the first of a series of entertainments planned by the Scots for the early months of this year.

Besides the usual picture and vaudeville entertainment, a special program, consisting of dances, musical selections and contests, was held.

Watermelon pickles in bulk, \$1.50 per gal. Bring containers, Taylor's Cannery, 1644 East Fourth.

SEWING MACHINES REPAIR-ED. Fix-It Shop, 105 E. 3rd St.

### COMMANDER OF G. A. R. HONORED IN SANTA ANA

Members of the Grand Army of the Republic, Women's Relief corps, Ladies of the G. A. R., and Sons and Daughters of Union Veterans of the Civil War, gathered at the American Legion hall, Thursday afternoon, to honor Department Commander Peter Mass, of San Francisco, who made his official visit to the local camp.

The meeting was opened with a dinner, the Santa Ana life and drum corps entertained with several musical numbers.

Special greetings were given the veterans of the Civil war by Mrs. Alameda Smith, president of the Women's Relief corps; Mrs. Anna Arnold, president of the Ladies of the G. A. R.; Miss Bertha Belt, president of the Daughters of Veterans, and E. J. Parker, department commander of the Sons of Veterans.

The principal address was made by Commander Mass. Other talks were given by Department Adjutant Knowles, of Los Angeles, and Mrs. Reed, of Riverside, department president of the Women's Relief corps. Another interesting address was that of the Rev. F. T. Porter, pastor of the First Christian church. Comrade Langley gave a brief talk, also.

Mrs. Cora Graham rendered several vocal solos. Other numbers included selection by the Radio Bentons, of the Christian church, readings by little Miss Betty Graham, and vocal solos by Mrs. Emma Chapman.

### Elks to Entertain Long Beach Bills

Santa Ana Elks are looking forward to tonight's meeting, when they will be hosts to more than 200 Elks from the Long Beach lodge.

Officers from the guest lodge, who will be entertained at a dinner here, also will put on the initiatory work, when candidates from Santa Ana and vicinity will be made members of the lodge.

Following the initiation, a program will be presented, under direction of L. A. Schlessinger, entertainment chairman. The program will contain several theatrical numbers, according to Schlessinger.

### LOCAL SCOTS AT LODGE INSTITUTION

Many members of the local lodge of the Ancient Egyptian Order of Scots were present Saturday night at the institution of the new pyramid in Inglewood.

More than 1500 Scots from various Southland cities paraded in the greatest lodge event in the history of Centinella valley, according to Santa Ana, who attended.

The new pyramid has the distinction of having the largest number of petitioners or charter members of any Southern California pyramid. The number is 106.

"Seidel Advertises Quality and Quality Advertises Seidel"

## Quality Builds Business

Quality is most essential in what you eat. There's no argument about that statement. Now these thirty Santa Ana grocers did not always handle Seidel's "U. S. Government Inspected and Passed" meats, but they will tell you that since they have Seidel quality has multiplied their meat business many times and has increased their grocery volume. The result, therefore, is happy dealers for Seidel and satisfied customers for the neighborhood grocers.

**WALL ST. JOURNAL**

NEW YORK, Jan. 25.—Price movements in today's session indicated that the technical position of the market had been impaired by the recent violent demonstrations in low price rallies by Wheeling and Lake Erie and Western Maryland. When it became apparent from the action in these stocks that they had exhausted their immediate possibilities on the upside, a thoroughgoing sell-off was followed by a vigorous drive on the whole railroad list.

Pressure was concentrated on C. O. ... New York Central ... of other ensnared issues which had

## WALL ST. JOURNAL

NEW YORK, Jan. 25.—Fierce movements in today's session indicated U. the technical position of the market had been impaired by the recent heavy selling of the market. The rally called by Wheeling and Lake Erie and Western Maryland. When it came apparent from the action of these stocks that they had exhausted their immediate possibilities on the market, a vigorous drive on the whole road list.

Attention was concentrated on C. O. Atchison, New York Central, and other seasoned issues which had been the main reliance of the market. These recent pyrotechnics in the low grade shares. Selling spread from the low grade shares to the high grade. The trial and substantial declines to place in Steel, General Motors, B. & O., American Chemical, American and other pivotal issues in this class.

Sharp breaks were experienced in United States Cast Iron Pipe, Rockington typewriter, Burns Brothers and other specialists with a gain in the low grade shares. The current occurred in special issues such as Ray Corporation and Timken Roller Bearing. The market here throughout the afternoon.

## WALL STREET JOURNAL

NEW YORK, Jan. 25.—Price movements in today's session indicated that the technical position of the market had been spoiled by the recent violent demonstrations in low prices, raised by Wheeling and Lake Erie, and Western Maryland. When these stocks that they had exhausted their immediate possibilities on the upside, professional operators launched a vigorous drive on the whole market.

Pressure was concentrated on C. O. Atchison, New York Central and other seasoned issues, which had played a marked reluctance to follow the recent price advances.

Selling spread from the carrier group to the principal industrial group, including American Steel, General Motors, Barwin, Allied Chemical, American and other pivotal issues, and this class.

Sharp breaks were experienced in United States Steel, Republic, Lexington typewriter, Burns Brothers and other specialties with a thin market.

General weakness of strength occurred in special issues such as Republic Corporation and Timken Roller Bearing.

At the close, selling pressure on the market heavy throughout the afternoon.

## COMMODITY MARKET

## WAS ST. JOURNAL

NEW YORK, Jan. 25.—Price movements in today's session indicated that the technical position of the market was hampered by the recent violent demonstrations in low prices, rallied by Wheeling and Lake Erie and Western Maryland. When it became apparent from the action on these stocks that they had exhausted their upward movement, it followed, upside, professional operators launched a vigorous drive on the whole rice market.

Pressure was concentrated on C. O. Atchison, New York Central and Union Pacific issues which had played a marked reluctance to follow the recent pyrotechnics in the low price range. The latter group of stock carrier group to the principal industrial and substantial declines to the low price level. General Motors, Win, Allied Chemical, American Smelting and other pivotal issues then advanced.

Sharp breaks were experienced on United States Cast Iron Pipe, Rockwell Corporation, Burns Brothers and other specialties with a thin market, although bursts of strength took place in the specialties such as Republic Corporation and Timken Roller Bearings. The steady selling of rails kept the market heavy throughout the afternoon.

# WALL ST. JOURNAL

**NEW YORK, Jan. 25.—**—Price movements in today's session indicated that the technical position of the market had been improved by the recent violent demonstrations in low price rails led by Wheeling and Lake Erie and Western Maryland. When it came apparent from the action these stocks that they had exhausted their upward movement, the upside, professional operators launched a vigorous drive on the whole range of iron and steel stocks.

Pressure was concentrated on C. O. Atchison, New York Central and Chicago & North Western, which played a marked reluctance to follow the recent pyrotechnics in the low grade, typical issues which had a similar group to the principal industrial and substantial declines to place them in line with the market. Allied Chemical, American Smelting and other pivotal issues this class.

Sharp breaks were experienced in United States Cast Iron Pipe, Republic Steel, American Bridge and other specialties with a thin market, although bursts of strength occurred in American Locomotive Corporation and Timken Roller Bearings. The steady selling of rails left the market heavy throughout the afternoon.

# WALL ST. JOURNAL

**NEW YORK, Jan. 25.**—Price movements in today's session indicated that the technical position of the market was still favorable. The reaction to recent demonstrations in low prices rallied by Wheeling and Lake Erie came apparent from the action. These stocks that they had exhausted their immediate possibilities. On the upside, professional operators launched a vigorous drive on the whole range of the market.

Pressure was concentrated on C. O. Atchison, New York Central and other big issues. Western Union played a marked reluctance to follow the recent pyrotechnics in the low grade shares. Selling spread from carrier group to the principal industrial and substantial declines took place in Standard, General Electric, Win, Allied Chemical, American Smelting and other pivotal issues.

Sharp breaks were experienced in United States Steel, Iron Pipe, Rockington typewriter, Bunas Brothers and other specialties with a thin market, although bursts of strength came in Standard, General Electric, Corporation and Timken Roller Bearing. The steady advance in the market was higher throughout the afternoon.

## BETTING BY PLAYERS

Betting on ball games by players is unethical in all cases. But certainly there is nothing crooked about a wager made by a player in which he picks his team to win.

From the dope that has emanated from the recent scandalous betting on ball games by players is a modern habit, far from it.

Many of the veterans of a score or more years back, the pitchers in particular, invariably had a bet down on their team to win any game that loomed up as important.

Possibly they worked on the theory that such a wager was an incentive for them to do their very best. To most ball players money is a prized possession.

## JACK POWELL'S CASE

I know of no veteran pitcher who backed himself as consistently as did Jack Powell, who finished his career as a big leaguer as a member of the St. Louis Browns.

Jack Powell was a great pitcher. He would be in the Alexander-Johnson class of right-handers were he playing today. In addition to remarkable natural ability, Powell had superlative confidence in himself.

Given good support by his teammates, Powell figured he had a better than even chance to win over any club he opposed. His favorite expression as he walked out to start a ball game was:

"If you fellows give me two runs today, that other gang will have a mighty tough time trimming us."

A working margin of two runs was all that Powell wanted. Not many modern pitchers would venture very much over so slight a lead.

## DUMBNESS NO ALIBI

Powell's favorite wager on himself was \$100 to win any time he stepped on the rubber, but he would bet any amount from \$10 up to a century on his ability to trim the opposition.

Ball teams as a rule have much more confidence when a pitcher is working who has supreme confidence in himself. Powell, as the pitcher, always created that feeling among his teammates.

If there is such a thing as a good loser in sports, Powell was that individual. If the opposition hit him freely or some player tossed off his game through an error, he accepted the bad break as a part of the game.

A dumb play, however, was an excuse for musing on the part of Powell, and he was a past master when he started.

Well do I recall a ball game that will show the confidence Powell had in himself. St. Louis was opposing Chicago. At the time the White Sox were fighting for the lead in the American league, while St. Louis was trailing in the second division.

## JUST A COLLEGE TRICK

If it is possible to accurately dope the odds, Chicago was at least a 2-1 favorite to win.

Going into the last half of the eighth inning, Powell was leading the great Ed Walsh, then at the height of his career, 1-0.

Chicago had runners on first and third with one out. A rookie college catcher was handling Powell's stuff. For no reason whatsoever, the rookie, excited by a fake start the runner on first had made for second, threw the ball to that base, which was uncovered.

Powell could see his ball game floating away as the "rah-rah" catcher made the "bone-head play." I was the umpire. Turning to me he merely said:

"When I bet that century on myself, I didn't figure on any of those college trick plays."

AND 'C' BASKETBALL TEAMS  
NEAR TOP; VARSITY FALTERS**

Santa Ana high school's three basketball teams--A, B, and C--are holding their own in this season's Coast Preparatory league championship races, a check on the standings of the eight competing schools disclosed today. The Poly varsity is in the cellar without a victory but the Class C quintette is tied for first place and the Class B aggregation is just a step out of the lead.

Long Beach and Whittier were the only undefeated teams in the league after second round games had been played in the varsity division. Pasadena and San Diego are sharing the leadership in the mid-weight class while Santa Ana and Pasadena are ahead in the mid-juniors.

This week's schedule brings together Santa Ana and South Pasadena in varsity and Class C contests here Friday with the 'B' players battling at South Pasadena Thursday. Whittier and Alhambra play at Alhambra; Long Beach travels to Glendale and San Diego comes north to meet Pasadena.

Standings follow:

VARSITY		
	W.	L.
Long Beach	2	0
Whittier	2	0
South Pasadena	1	1
Alhambra	1	1
Pasadena	1	1
Glendale	1	1
San Diego	0	2
Santa Ana	0	2

Last Week's Results:  
Long Beach, 25; Alhambra, 15.  
Glendale, 21; San Diego, 19.  
Pasadena, 18; South Pasadena, 11.  
Whittier, 20; Santa Ana, 14.

Next Friday's Games:  
Whittier at Alhambra.  
San Diego at Pasadena.  
South Pasadena at Santa Ana.  
Long Beach at Glendale.

CLASS B STANDINGS		
	W.	L.
Pasadena	2	0
San Diego	2	0
Long Beach	1	1
Santa Ana	1	1
Whittier	1	1
Glendale	1	1
South Pasadena	0	2
Alhambra	0	2

Last Week's Results:  
Long Beach, 25; Alhambra, 10.  
Whittier, 20; Santa Ana, 16.  
Pasadena, 20; South Pasadena, 15.  
San Diego, 18; Glendale, 10.

This Week's Schedule:

Pasadena	2	0
Long Beach	1	1
Alhambra	1	1
Whittier	1	1
Glendale	1	1
South Pasadena	0	2

Last Week's Results:  
Long Beach, 15; Alhambra, 13.  
Santa Ana, 21; Whittier, 7.  
Pasadena, 25; South Pasadena, 7.

This Week's Schedule:  
Whittier at Alhambra.  
South Pasadena at Santa Ana.  
Long Beach at Glendale.

**LOSERS-WINNERS-THEY STICK TOGETHER**

Here's the start of the big adventure which brought fame and wealth to George Young and his friend, Bill Hastings. The two youthful Canadians are shown ready to start from Toronto for California aboard their second-hand motorcycle, last fall. Young is in the side car.

**COMMISSIONER LANDIS MAY  
REINSTATE COBB, SPEAKER**

CHICAGO, Jan. 25.--Likelihood that Tris Speaker and Ty Cobb, discharged managers of American league baseball clubs, would be returned to honorable positions in baseball, loomed today following an announcement by Commissioner Keneaw M. Landis that he would issue a statement on the Cobb-Speaker matter later in the week.

Cobb's attorney, Judge James M. Murnin, of Detroit, and Speaker's counsel, William Boyd of Cleveland, conferred with Judge Landis yesterday and left for home last night. Neither ball player was present at the conference with the baseball commissioner. It was not definitely known, but surmised that the attorneys threatened to go into court to force Cobb and Speaker back into baseball if Landis' ruling is not favorable to the star outfielders.

If both players are vindicated of the charges brought against them and taken back into baseball, it is believed that several clubs will bid for their services. Detroit, Washington and New York are said to be anxious to acquire Speaker and one rumor has it that Cobb will go to Cleveland in exchange for Speaker.

Cobb, if given a clean bill of health by Landis, may not play baseball this season. He said he would leave Chicago last night that he contemplated taking an European trip.

Ban Johnson, ordered by his doctor and by American league owners to "take a rest," will leave Chicago and go to a sanitarium. It was learned today. On advice of his physician, Johnson has refused to see newspapermen since owners of Am'can league clubs shelved him Sunday night.

**COAST LEAGUE CLUB OWNERS  
VOTE ON DRAFT RULE TODAY**

HOLLYWOOD, Jan. 25.--Club owners of the Pacific Coast league were scheduled to go to the mat here today to decide whether they would adopt the new draft law, making all Coast league players subject to major league selection.

Copies of the tentative agreement reached at the recent major-league conference at French Lick Springs, Ind., were distributed among the moguls yesterday with the announcement that a vote would be taken at this morning's session of the annual winter conference.

Whether the Coast league owners will accept the universal draft is extremely doubtful. A canvas of the various interests today showed that Hollywood and Los Angeles were openly favorable to the new ramento, the Missions and Portland will probably vote against its adoption. Oakland and Seattle are different and their stand is doubtful.

## ADAMS TO BOX

SAN BERNARDINO, Jan. 25.--Johnny Adams, local lightweight, will make his second home appearance of the year when he meets Frankie Burns in the main event at the San Bernardino Orange Belt Athletic club Thursday night.

"Newcomer sells good wood."

**Kansas Moguls  
Suspend Hudkins**

TOPEKA, Kas., Jan. 25.--Ace Hudkins, Nebraska boxer, has been indefinitely suspended by the Kansas Boxing commission as the result of a cancelled bout between Hudkins and Battling Levinsky, alias Syd Socklyn. According to the commission, evidence has been found that Levinsky was Hudkins' sparring partner and trainer.

**Mickey Walker to  
Scrap In Fresno**

FRESNO, Calif., Jan. 25.--Mickey Walker, middleweight champion of the world, will fight here February 1, Tommy McFarland, matchmaker for the local American Legion, announced today on his return from Los Angeles, where articles for the fight were signed by Jack Kearns, manager of Walker.

## SHORT SPORTS

NEW YORK--After a short and unexpected visit here to get his contract changed so that he will not have to appear in any more "five a day" features, Gene Tunney, heavyweight champion, will leave tomorrow for Spokane to resume his vaudeville tour.

CAMBRIDGE, Mass.--Harvard tried to stop the publication of Wynant Hubbard's article, attacking Princeton football. It was revealed with the publication of letters from President Lowell to Hubbard and the publishers of three weekly magazines asking that it be not printed.

NEW YORK--Jack Delaney, world light heavyweight champion, will defend his title against Jimmy Delaney, St. Paul, in Chicago, March 17, his manager announced.

By ED. WHEELAN

**MENTOR SCOTT  
FEARS DEFEAT  
BY RIVERSIDE**

Capt. Squires' Return to Squad Will Aid Team In Contest Here Tomorrow

Fearful that his powerful scoring combination is in the throes of a midseason slump and may never reach the peak of form again for at least 10 days, Walter Scott, coach of the Santa Ana junior college basketball squad, was despondent today and refused categorically to predict victory for his Dons over the Riverside junior college outfit in the conference set to that will be played in Andrews gym tomorrow night.

Off their early season showing, the Dons looked like certain champions of the Southern California Junior College conference and they began their league season most impressively. Injuries and mediocre teamwork resulted in overwhelming defeat for the Santa Anans at the hands of Pasadena last week and the reversal caused such a spirit of discouragement to spread over the squad that Scott has had to work diligently to get the team back into some kind of a proper mental attitude.

Not only have injuries weakened the team, but the players, hard hit by final exams, are not up to par. Faris Edgar, chief point scorer on Coach Walter Scott's team, is in a slump and that is a blow to the Santa Ana offense.

Captain Donald ("Squeek") Squires who was injured will be back in the game for the first time in more than a week but it is doubtful if he will be able to go the entire route.

The probable starting lineup will be Faris Edgar and Frank Labrucher at forwards; Keith Rogers at center; Donald Squires and James Smith at guards.

Riverside junior college has one of the strongest teams in the conference but Santa Ana has the edge on paper. Both squads have been defeated once. Riverside lost to San Bernardino, a team which Santa Ana defeated and the Dons dropped one to Pasadena.

Santa Ana and Fullerton high school Class C teams will clash in a curtain-raiser tilt at 7 o'clock.

## EDISON

The children of Edison school enjoyed a three-day visit from a large desert tortoise, belonging to Elizabeth Burnell, assistant supervisor of nature study in the Los Angeles city schools, who is conducting an extension course in nature study in Santa Ana.

The following compositions are from fourth and fifth graders:

**Slow But Sure**  
The tortoise is very slow for he has a house on his back. Which is very much like a sack. "But," says he, "the house you see is a very great help to me."  
—By Maxine Frank.

**The Tortoise**  
The tortoise lives in the desert. He sleeps most of the time. He has a head like a snake. The tortoise eats lettuce. He walks very slowly. When anyone comes near he draws himself into his shell, which serves as his house. He lives very happy in his little shell house.  
Eugene White.

**The Tortoise**  
One day there was a tortoise brought into a class room. I named it Anna Jane. It was a beautiful thing for the shell he wore was not at all like most of the tortoises.  
When you go near it goes into its shell for it is frightened. A child in our school gave it some lettuce but it would not eat for it was too frightened. We examined him very closely and then molded him from clay.  
Agnes Mackay.

The fifth grades of Edison school are trying hard to grasp the art of writing paragraphs and stories. The following stories, a response to a picture, advertising jello, were written by members of this class:

**The Two Boys**  
Once there were two boys. Their names were Jack and John. Jack was eating jello when along came John and looked in and wanted some, but Jack said he would not give him any. So they began to fight. When Jack ran up he kicked the jello over and neither one had any.  
Norman Howell.

**Delicious**  
Once upon a time a little boy went into a pantry. He saw a nice large dish of jello on the shelf. He went into the kitchen to see if his mother was at home. His mother was not home so he went back to the pantry and took the jello down from the shelf and ate it. His sister stepped into the room and said, "I'm going to tell mamma on you!"  
Then brother said, "Don't tell, sister; I'll give you some if you won't tell."  
Then his mother came in and said, "Why, brother, what are you doing?"  
Brother answered, "Mother, if you don't whip me I'll give you the rest of it."  
—By Warren Jessie.

## JOHN MUIR

Quite a number of children at John Muir school have been proudly wearing blue ribbons this week. These are the children who had all the children in the music memory contest correct. It was noticed that some of the ribbons had a gold star on them. These were the children who also had no misspelled words in the music test.

Following is a list of winners in the fifth grade where 17 papers out of a class of 18 were correct: Charles Bright, Zella Bales, Numa Marlborough, Eva Nieblas, Edward Krauss, Elva Marie Scott, Maryanna Deaver, Donald Stevens, Ralph Edes, Barbara Dutton, Jasper Edes, Robert Kerr, Ernest Schultz, Robert Little, Robert Steele, Mirtle Eley and Bruce Johnson.

Fourth grade—Jean Reuter, Althea Sifton, Barbara Rowland, Sadie Terptrast, Thelma Mashburn, Iola Rice, Walter Cullen, Valerie Demetree, Jesus Castro, Archie Brooks, Bruce Swishelm, Stillings, Charlotte Mock and Vivian White.

The following first graders were 100 per cent in the music memory contest: Jack Lente, Bertha Dyer, Rosie Ruiz, Margaret Ruiz, John Flores, Junior Ketchum, Irene Watkins, Walter Porter, Dorothy Winn, Ralph Bright and Rosemary Sifton.

The following second graders: Edena Lopez, Lorene Rogers, Jean Allen, Lois Rohrs, Frances Niekler, Eleanor Luz, Virginia Niekler, Mildred Dyer, Arthur Scott, Marvella Galtreath, Norman Wyckoff, Pedro Castro, Jack Hutton, Agnes Iley, Lupe Castro, Helen Allison.

The following third graders: Raymond Dossey, Harold Whitaker, Edward Albert, Shirley Lindgren, Edna Barnes, Esther Lopez, Bonnie Bright, Tamiko Hagashi, Herinda Casarez.

**Improvement Club**  
The John Muir Improvement club held a meeting Friday, January 14. As the roll was called each person told a joke, the members also giving their reports. Several subjects were discussed and the meeting was adjourned.  
FRANK HUSTON.

## ROOSEVELT

A list of the children receiving 100 per cent in the music memory contest is: Rupta Serrano, Norma Lee, Betty Jane Graham, Carl Carlson, Virgil Brown, Josephine Thornton, Phillip Jones, Charles Peurung, Dessie Armstrong, Frank Was, Marguerite Rachels, Evelyn Converse, Billy McFarren, Lynn Du Temple, Joe Serrano, Richard Rutledge, Earl Jones, Joe Russell, and Vernon Blythe.

Ralph Pagenkopp, Celia Ramirez, Jackie Triplett, Wilford Geske, Edward Cunningham and Charlie Jones, Evelyn Stutte, Edna Lente, Marion Duncanson, Bonnie Dugger, Harley Hastings, James Rachels, Oliver Titchener, Billy Roebuck, Wayne Parsons, Martin Borden, Worth Elliott, Winifred Brown, Richard Preston and Mad-

eline Gilbert, Harry Harvey Loomis, Virgil Jones, Barbara Warner, Tod Moritz, Ellen Du Temple, Betty Bradley and Betty Gallagher.

**Venture Forth Club**  
The Venture Forth club met Thursday. A committee of five was appointed to prepare for the party to be given to the Live Wire club.

The next meeting of the club will be a demonstration meeting of "Something Worth While."

**Pennmanship Certificates**  
Ten members of the 6A class received improvement certificates for writing. The children were Hazel Martin, Bobbie Brown, Bruce Harms, Bruce Barton, Virginia Carlizzo, Essie Smith, Opal Haddock, Helen Rugger, Benton Van Dine, Anamae Humphry.

**Ball Game**  
The Red Dragons and the Blue Streaks played a ball game Friday afternoon. Miss Lindsay, physical education teacher, umpired for the boys. The score was 8 to 7 in favor of the Blue Streaks.

**Pictures**  
The two pictures "Lifting Fog" and "Wild Heliotrope," from the Colonial Institute, earned by the children, came last week. When they are framed and hung in the two rooms having the least tardiness for the month.

**FRANCES WILLARD**  
At the regular meeting of the Willard Welfare club on January 19 the officers for the ensuing semester were elected. They are as follows: President, Georgia Gail Pennock; vice president, Ethel Ellis; secretary, Alice Jacobson; treasurer, Charlene Lowell, and reporter, Lillian Hurwitz.

It was announced that a talk was to be given in the Washington building on Monday, by Dr. Beebe, to which mothers of young children were especially invited. The girls were very happy to offer their services in taking care of the babies and small children whose mothers would bring them to the school. One of the purposes of the club is to perform helpful services to the school and the community.

After school on Wednesday the Willard Welfare girls enjoyed a picnic at Orange County park. About 30 were present, including several teachers and mothers of the girls. A jolly good time was enjoyed. Games were played as well as a picnic dinner was served. After the picnic the girls built a fire and sat around it and sang. The dinner consisted of potato salad, meat loaf, potato chips, cocoa, sandwiches, cake and pie.

**Willard Service Club**  
The regular service club meeting was held last Tuesday noon in the banquet room. Ernest Smith, the president, presided. He introduced the speaker of the day, Sam Hurwitz, who is a prominent business man of Santa Ana. Mr. Hurwitz gave a most interesting talk on "Personality." He told the boys what a great and indispensable part personality played in relation to successful business.

The girls' vocations classes have heard talks on nursing by the school nurse, Miss Ven Syoc, on the library by Miss Calkins, on the Lathrop branch library, and on commercial advertising by Mrs. Bracke, of Rankin's department store.

Volunteer projects have been handed to Miss Hazel Thrasher depicting miniature scenes of various vocations such as the hospital, the library, the bank, the military store and the school room.

**New Books**  
New books recently added to our library shelves are as follows: "Martha, the Seventh," "Brenda Stays at Home," "Loyal Mary Garland," "Loyal and Mary Louise," "Seven of the Great Aeroplanes," "Virginia Lee," "Mark Tidd in Egypt," "Annette and Her Family," "Dr. Doolittle's Caravan," "The Cave of Gold," "A Stirring Tale of California in '49," "Jungle Pirates," "Winnie - the Pooh," "The Bat," "Cherry Square," "History's Most Famous Words Telling Whom, Where, Why and By Whom We Have Used Great Sayings That Have Passed Into the Common Speech," "Gold Seeking on the Dalton Trail," "Lucky in the Path," and "Larry of the North."

**Interesting Review**  
Miss Pearl Nicholson's class in seventh grade geography has been conducting an interesting review of the United States. Before Christmas, slips of paper were passed out, bearing numbers to represent various states. Each student made a slip representing the state which he drew. The materials for this project were furnished by Miss Nicholson, the class teacher, and the members in the class contributed their efforts to the social study department of Lathrop.

**McKINLEY**  
Naomi Isham who has been very ill with influenza during the second week of January is able to be with us again.

Garden seeds were sold by Mrs. G. P. Peterson last Friday morning. The nature-study classes were given to have vegetable gardens this spring. An unusual amount of interest is being manifested by students in this project.

Report cards for the first semester will be issued Friday, January 28, 1927.

**Kindergarten Band**  
The McKinley kindergarten band will play for the P. T. A. meeting next Thursday evening. The director of this band is Harry Wendel Thompson, son of Mrs. Neil Thompson at 915 West Chestnut street.

Those enrolled in the band are: Leo Armstrong, Marion Baldwin, Evelyn Berge, Darlene Brickey, John Lewis, Brinker, Charles Carroll, Jack Clark, Betty Jean Corn, Iris Crawford, Bryce Eastman, Lois Fore, Harold Franke, Charles Franke, Doris Ann Glynn, Jack Holmes, Geraldine Hess, Ned Kneman, LeRoy Jones, Doris Kay, Marilyn Kie, Elymore Lacy, Helen Le Roy, Yvonne Leonore.

**Reception of New Students**  
Reception of new students from the grade schools to Frances Willard school will take place Wednesday, January 26, 3 o'clock.

There will be a short program, and the students will be told of the traditions and regulations of the school and shown through the buildings. The high nine girls will make the acquaintance of their little sisters on this occasion. Both boys and girls, promoted from the grade schools to Frances Willard are invited to this reception.

**Fathers and Sons Banquet**  
The boys and their fathers of the Frances Willard are planning one of the most successful and happy of the year when they will have their banquet at the Y. M. C. A. on the evening of February 4. All are asked to save that date as this meeting is sure to be a big success and one which every boy and his father should attend.

**Scrap Book Club**  
The semi-monthly meeting of the Scrap Book club, under the direction of Miss Fitz, was held Monday, January 17. An article was read by Jean Bishop on scrap books. A discussion was held on the election of officers and after working on some very interesting scrap books the meeting was adjourned.

**JULIA LATHROP**  
At an assembly Tuesday, January 18, Lathrop enjoyed an excellent program put on by the high school glee clubs and the Lathrop girls' glee club. The high school boys' and girls' glee clubs gave several songs which were appreciated by the Lathrop students. The Lathrop girls' glee club gave several songs and dances in costume by way of advertising the opera presented on Thursday. Miss Edith Cornell's drama class of boys presented two scenes from the play called "Up Caesar's Creek."

Faculty members and students at Lathrop have been sorry to hear of Mrs. Webber's illness. She has been ill with the flu for several days. In her absence Miss Iva Carl of the typewriting department, assisted by Mrs. Ward, has been taking charge of her classes. Lathrop was very glad to hear Mrs. Webber at school again on Thursday.

Howard Park, Gordon Paul, John Pail, Gilbert Prescott, John Quom, Richard Wright, Dorothy Blakeslee, Virginia Clapp, Marian Doty, Luellma Dominyue, Geraldene Griffith, Naomi Hawkins, Janice Thomson, Nancy Lwice, Betty Lee, Mildred Pearson, Georgia Snyder, Alice Thompson, Edna Wilson, Harriet Zimmerman and Bernice Wellet.

There will be a short program, and the students will be told of the traditions and regulations of the school and shown through the buildings. The high nine girls will make the acquaintance of their little sisters on this occasion. Both boys and girls, promoted from the grade schools to Frances Willard are invited to this reception.

**Fathers and Sons Banquet**

Faculty members and students at Lathrop have been sorry to hear of Mrs. Webber's illness. She has been ill with the flu for several days. In her absence Miss Iva Carl of the typewriting department, assisted by Mrs. Ward, has been taking charge of her classes. Lathrop was very glad to hear Mrs. Webber at school again on Thursday.

Visalia, California.  
Mr. R. W. Surge, General Petroleum Corp., Visalia, California.  
Dear Sir:  
For your information, I have checked the gas mileage with my Packard six sedan between Visalia and Los Angeles for the past four months.

Ordinarily I have made this distance of 202 miles on 12 gallons of gasoline, or an average of 16 2/3 miles per gallon. However, when I started using the new General Gasoline, I checked the mileage and found that I could make this same trip using only 11 gallons of gasoline or an average of 18 2/3 miles to the gallon.

I think this is a remarkable showing for your product.

Very truly yours,  
J. M. Lipson, M.D.  
Visalia, Calif.

**Dr. Lipson of Visalia gets nearly two more miles to the gallon with new GENERAL GASOLINE**

Another proof! It takes less of the greater General Gasoline to cover the distance. This is highly volatile gasoline—quicker starting and more powerful. At the same time you get more miles. And remember—no carbon—no fuel knocks.

And the greater General Gasoline costs no more. All Independent Dealers from Canada down serve it. Paraffin your crank-case and fill up with Paraffin motor oil. Para-4rd for Ford. "It's the end of the run that counts."

Write us about your unusual experiences with the greater General Gasoline. General Petroleum Corporation, 701 Matson Building, San Francisco.

# The JUNIOR REGISTER

A Weekly Newspaper Written by and Devoted to Orange County High School Students

## NAME NEWMAN PRESIDENT OF STUDENT BODY

George Griffith Is Elected Vice President by Tustin High School Voters

By VIRGINIA VIAU  
TUSTIN UNION HIGH SCHOOL, Jan. 25.—John Newman was elected student body president for the second semester by a majority of 17 votes over Jack Taylor, in an election held January 19.

Newman has attended Tustin high school during all of the three and a half years of his high school course. During these terms he has held various offices. As a freshman, he was president of his class; as a junior he was vice-president of the student body and president of the honor society; of the latter organization he is a permanent member. Now, in his senior year he is the business manager of the Audion, the school annual.

Other officers elected on Wednesday were:

Vice president, George Griffith; secretary, Mildred Staples; treasurer, Edwin Hind; foreman, Virginia Viau; boys' athletic manager, Thomas Crawford; girls' athletic manager, Elmer Lane; parliamentarian, Elmer Rittner; yell leaders, James Cole and Kenneth Forbes; song leader, Juanita Sears.

The election, held January 19, was a re-election over the one held the date previous to this, when John Newman received 85 votes to the 57 received by Jack Taylor. As the election was so close, the two candidates requested a new election. This request was allowed by the student body when a unanimous vote was taken to this effect.

Students have expressed the opinion that never before have they seen such interest and spirit shown in a Tustin student body election.

## BEACH GIRLS TO PLAY STICK GAME

By MYRNA RITCHIE  
HUNTINGTON BEACH UNION HIGH SCHOOL, Jan. 25.—The girls' physical education classes of the high school are going to take up hockey in the near future.

The girls have been allowed to play games this year that they were not allowed to play before. Since the basketball season has closed, the girls have been anxious for other sports.

Soon after school began, their instructor, Miss Cleland, announced that after Christmas vacation, they would take up hockey. The equipment has now arrived.

## 'Sailor Maids' Operetta To Be Given at Grove

By ELIZABETH LEHNHARDT  
GARDEN GROVE UNION HIGH SCHOOL, Jan. 25.—"Sailor Maids" is the operetta to be given by the glee clubs of the Garden Grove union high school, March 11.

The story of the operetta centers around four main characters: Frances Marie Templeton, Ethel Brown; Jeannette, her friend, Ruth Ryan; David Kern, Clark Hayhurst; Edward Dover, Rush Bumgardner. Olga, the Swedish maid, is portrayed by Myra Bragg. The real comedians in this comedy are Olga and Gerald, Warren Van Pelt.

A chorus of sailor maids and another of sailor boys is formed by the rest of the members of the glee clubs.

Two cases of "Love at First Sight" are shown. In both cases the girls are deceived as to the identity of their lovers, mistaking one of them for the caterer and the other for the fiancé.

Captain Dover and Mrs. Templeton are the other characters. They are played by Edgar Mark and Robert Prior.

Miss Edna May Abbey, music instructor, and Mrs. Irene Pringle, dramatic teacher, have charge of the staging of this operetta.

## Gargle Aspirin for Tonsillitis or Sore Throat

A harmless and effective gargle is to dissolve two "Bayer Tablets of Aspirin" in four tablespoonfuls of water, and gargle throat thoroughly. Repeat in two hours if necessary.

Be sure you use only the genuine Bayer Aspirin, marked with the Bayer Cross, which can be had in tin boxes of twelve tablets for few cents.—Adv.

## UNIFORM DRESS PROBLEM VEXES GIRLS AT ORANGE; OPPOSITION IS EXPRESSED

ORANGE UNION HIGH SCHOOL, Jan. 25.—The question of uniform dress for girls at Orange union high school is greatly agitating the student body, particularly the girls, as they are the students who will have to wear the white middie and blue skirts, if adopted.

The following are some of the opinions expressed on the subject: Lavinia Compton—"We come to school to prepare for the future. Among the important things girls learn in school is how to dress correctly. Through contact with others and personal experience, they learn what styles and colors are best suited to them, how to wear their clothes in the most becoming way, and the other things that make a person well dressed. Many girls go from high school out into the world; and if they have uniform dress in school, a great problem is before them, a problem that would be almost wholly solved, but for the middie and skirts they are compelled to wear when in high school.

"This middle and skirt idea is to promote democracy, but one teacher hit the nail on the head when he said 'Democracy does not necessitate that we standardize like the German army.'"

Helen Prentiss—"Down with middie and skirts. I do not say that from inexperience, for I wore them for about two years in a school I previously attended.

"The first reason I object to them is because they do not give the girl a chance to use her own individuality. I think they are fine for a large school where the girls have a tendency to overdress, but I think in a school of this size it is entirely unnecessary. I think they make the girls look ordinary. They also remind me of jail birds. In a short time I become very tired of them. Girls who argue for them will soon will have the same feeling. As I said before, down with the middie and skirts!"

Ella Lighthall—"We don't want to be card-ford and standardized. We want to be able to express our own individuality and there is no better way for a girl to do this than through her own personal appearance. If we have to dress alike we haven't the opportunity to express our thoughts and ideas about clothes. American people have the right of free speech and free religion. Why not let the American girls have the right to dress as she pleases? If we wear middie and skirts we must have at least three middies a week and our skirts must be taken to the cleaners at least twice a month. They cannot be taken home and run through the washing machine as our school dresses are. For what the cost of having our skirts cleaned twice a month we would come, we could buy two nice common-sense school dresses. Variety is the spice of life."

Up to the present time, there have been no clubs organized in the high school. The Commercial students—those studying bookkeeping, shorthand, typing and commercial arithmetic—are taking great interest in their work. Because of this enthusiasm, it is believed that the club will be a great success.

In the majority of the schools of the United States, clubs are formed to stimulate the interest of the students. Hopes are held that the local club will be as prosperous as those in other schools. The sponsors, Miss Humiston and Mr. Mearns, hope to have many demonstrations of different machines, and trips to business colleges and large business concerns. Other plans will be made in the future.

## Fullerton Frolics

FULLERTON UNION HIGH SCHOOL, Jan. 25.—The Hi-Y club was host to the members of the football squad at a banquet served at the Placentia Round Table clubhouse. Merle Waterman of Hollywood made the main address. The new captains, Frank Byrd and Robert Hezmalhalch were introduced and each made a few remarks.

Eleven pairs of twins are included in the Fullerton union high school student body. Francis and Ruth Snow are members of the yearling class. The sophomore class has Vesta and Verla Wyatt, Donald and Dorothy Kiser, Esther and Elizabeth Bohling. The juniors twins are Robert and Charles Hezmalhalch. The seniors are Cleo and Leo Tanquary, and Maxwell and Marion Ervin. Other twins are Vernon and Arthur Bell and Mary Jane and Mary Louise Allee.

The girls in the 8:30 a. m. gymnasium class have taken up soccer. That's one game where a good kick means something. It is hoped to develop a fine team.

The Girls Friendly Society will give a dance February 12 at the Fullerton Ebell club. Special entertainment features have been planned.

RAISES BIRD QUESTION  
WASHINGTON, Jan. 25.—The Mexican eagle, rather than the American eagle, is on the face of American school textbooks, if Lt. Col. T. J. Dickson, retired army chaplain, is correct. The house military committee is to question publishers on its charges of erroneous accounts of the activities of American soldiers.

WARM BUTTER  
Butter will cream with sugar more easily if it is slightly warmed first, but not allowed to melt.

If you could ride from the earth to Alpha Centauri, the nearest star, and traveled at the rate of a mile a minute, you would reach your destination in 18,000,000 years.

## Orange Peals

ORANGE UNION HIGH SCHOOL, Jan. 25.—William Fuhrmann, the new music supervisor at Orange high school, has had 17 years' experience in music instruction, choruses and orchestra leading. He is a member of the American Guild of Organists. He holds a state certificate from the Buffalo, N. Y., state normal, a state certificate from Cornell university and a certificate from the music school of the New England Conservatory of Music, at Boston, Mass.

Oleta Myracle won the cash prize offered for the best picture depicting a character from the works of Chaucer, the prize having been offered by Mr. Stoner. Mildred Bush won second prize.

The concluding article of a series written by Phyllis Lucy Keyes, a member of the faculty, concerning her European tour last summer, is printed in the last issue of the "Reflector," the high school weekly. The articles have been proved very interesting and instructive and the students regret that they have concluded.

Examinations are scheduled for February 3 and 4. All students will take the examinations. For the "one" and "two" students the examinations are just practice.

## BACHELORS AT ANAHEIM SIGN NEW MEMBERS

Conservation of Financial Resources Chief Aim of Young Celibates

By RODNE/CHAMBERLAIN  
ANAHEIM UNION HIGH SCHOOL, Jan. 25.—Although the Jolly Bachelors do not make screen acting the principal objective of their club, nevertheless they participated in a local film, taken especially for the popularity contest held at an Anaheim theater. In the scene were the participants of the contest, representing the leading business houses of the city, the Bachelors forming an escort.

The club reserved a section in the theater and in the evening attended the program, which featured the popularity contest for the selection of "Miss Anaheim." Those in the theater not aware of the Bachelors' presence, were informed by two rousing yells.

Later, the brotherhood adjourned to a confectionery, where an open meeting was held. Before being served with ice cream, the club's newly-planned members were called to give their object in joining the club. The principal objective seemed to be conservation of financial resources, so that incidentally the organization promises to be one of thrift as well as mutual protection from the fair sex.

Many new applicants have been pledged during the last week, all of whom are guarding their every penny as to eliminate the possibility of being "blackballed" when they are voted upon. Initiation is to take place at Arrowhead, where the brotherhood will take a two days' vacation.

This club, under the leadership of Grand Exalted Bachelor Rees, is becoming the most important club of the school. The members are abiding by the club's constitution, which forbids any affiliation with the opposite sex other than for necessary business. This is indeed proving a true haven of refuge for the persecuted male members of the Anaheim union high school student body.

## FEW LONG HAIRS AT GROVE SCHOOL

By ELIZABETH LEHNHARDT  
GARDEN GROVE UNION HIGH SCHOOL, Jan. 25.—Only ten girls and one teacher in the Garden Grove High School have long locks. All the rest of the girls and faculty members still frequent the barber shops.

Mrs. Pringle, the dramatic teacher, is the only teacher in the school who has not succumbed to the fad. Arranged in an attractive Spanish style, Eunice Pringle's long hair helps her bring forth the Spanish characteristics in her dancing.

Lillian Warwick prefers the sweet and becoming old-fashioned style of long hair. Margaret Day, with her long, dark curls, is an honor to the school. Mary Doff, Clarice Campbell, Ruth Moody, Grace Lee, Estella Crow, Helen Ban and Mabel Bumgardner are the other girls who still treasure their long locks.

The boys don't say much about their thoughts in regard to long-haired girls, but many of them rally about some of the girls with long hair.

Every so often some of the bobbed-haired girls of the school start to let their hair grow out, but when it gets down about their shoulders and begins to look shaggy, they again go toward the barber shop.

This take-off is dedicated to those girls with long hair, with apologies to Kipling: "If you can keep your hair when all about you are shearing theirs, and wanting to; if you can hold your tongue when others mock you, but make allowance for their nerve and sinew; if you can force your heart and nerve and sinew; if you can keep your hair after theirs is gone, and hold on to it when there's nothing in you except the will which says 'hold on'."

If you can talk with crowds and keep your locks too, Or walk with 'shells' nor lose your common sense. If neither foes nor loving friends can hurt you, If women doubt you 'freak' in self-defense, If you can smile, with not a hat to fit you, If you can sigh, but never shed a tear, Yours is the earth and everything in it; And what is more—you'll be a lady, dear."

When tea is split on table linens, sprinkle with borax at once and moisten with water. Let stand a while before rinsing with boiling water.

TO IRON LACES  
Iron laces face down on a Turkish towel, to bring out the pattern.

## Cartoon Contest Being Held At Poly High

By MARY ARNOLD  
SANTA ANA POLYTECHNIC HIGH SCHOOL, Jan. 25.—Contests are the life of a school. We have had athletic contests, forensic contests, and essay contests, and now we are to have a brand new one, namely, a cartoon contest, which will enable the art students and those who have a sense of humor, combined with talent for drawing, to illustrate their abilities.

A substantial reward will be given for the best cartoon turned in at the "Generator" office. The cartoons will appear in the "Generator," according to their merit, either semi-monthly or monthly. The contest is open to all who feel they have the ability to draw or who covet the prize.

## POLY STUDENTS NOMINATE FOR 1927 OFFICERS

By FRED BURLEW  
SANTA ANA POLYTECHNIC HIGH SCHOOL, Jan. 25.—Competing keen for the office of president of the student body at the nominating assembly.

Hurbert Prior, Raymond Hutchens, Judson Riley, and Dean Miller were nominated, although petitions had also been taken out for Virginia Brannon and Clarence Sprague.

Stanley Norton and Gayle Baldwin were the sole nominees for the positions of vice-president and secretary respectively. Contestants for positions on the girls' self government committee are Virginia Bailey, Janet Wilson and Jean Nicholson while Fred Burlew, John Moffat and Ralph White are in the race for boys self government.

Preceding the nominations, a group of negro students from the Piney Woods school near Brackston, Mississippi, sang several selections, entitled "Heaven," "Little David Play on Your Harp," "Noah Built the Ark" and as an encore, the old favorite, "Old McDonald Had a Farm."

An exhibition of parts of the operetta, "Penny Buns and Roses," which the Julia Lathrop junior high school presented at the Temple theater, followed.

Concluding the assembly which was in charge of Harvey Bear, Mr. Clayton read the revised constitution.

## Boys Appear In Peculiar Garb; Hi-Y Club Stunt

By DUDLEY CRAWFORD  
TUSTIN UNION HIGH SCHOOL, Jan. 25.—In the halls Thursday, January 20, were seen three boys in strange garb. The night before, the Hi-Y members had decreed that these new members should come to school the next day dressed as hideously as possible.

At this meeting each of the new members being initiated was ordered to render in the best manner possible a peculiar action. If one so much as "cracked" a smile, he had to put his face on the floor and "rub it off."

When these members appeared at school, there were jeers and laughs at the unfortunate ones' expense, although some people did not know why these boys were so strangely dressed. When the reason was explained, the unhappy victims were subjected to the joking of the students.

Tom Smith was seen galloping around in a pair of dungarees and cowboy boots. Thoburn White had the pleasure of wearing his overcoat all day. One student thought he had torn a hole in the seat of his pants and was using the overcoat as a means of concealing the fact.

Kenneth Forbes wore his pants rolled to the knees. As he was not allowed to wear any socks and the weather was cold, "Kenny" thought that school would never let out so that he could put on a pair of socks and get his legs warm.

Spanish Club at Tustin In Frolic

By LOUISE GRISET  
TUSTIN UNION HIGH SCHOOL, Jan. 25.—Thirty members of the Spanish Club celebrated its recent organization with a party in the music room Friday evening, January 21.

Spanish customs were used in the program. A Spanish orchestra, led by Miss Frothingham of Santa Ana high school furnished Spanish music. Marie Ann Voigt of Santa Ana, gave a Spanish reading. Mr. Humiston of the Tustin faculty read a Spanish story. Several Spanish games were played. Chocolate and pan dulce were served for refreshments.

The raising-money group of the Girls' League brought "The Bat," a very interesting movie, to the school last Monday and Tuesday. It was quite difficult for some of the students to return to their classes after seeing some of the very creepy parts of the play.

The four squads of boys' casaba

## FULLERTON ATHLETES FIND DOGS AND GOATS SCATTERED OVER CROSS COUNTRY ROUTE

FULLERTON UNION HIGH SCHOOL, Jan. 25.—There are not yet enough men out for track. The interest, however, is growing. Several new men reported this week. A great interest is being shown in the cross country course. About the only difficulty that has been experienced by these men is due to the dogs. All the dogs in the country seem to be on the course at the time that the fellows run over it. The interclass captains will be elected soon, in preparation for the interclass meet. No dates have as yet been set for this meet.

Last Friday, the track team got its first goat, and that's no joke. Instead of bringing home the bacon, it was mutton. The cause for this was that when several of the fellows ran over the cross country course they came upon a goat. Said goat took much interest in these fellows. Perhaps it was related to one of them. At any rate it followed them into the gymnasium.

## JR. REGISTER EDITORIALS

THRIFT AND ECONOMY  
Thrift and economy go side by side. Economy is thrift; thrift, economy. Economy is not merely saving; it is foresight and arrangement. It is the generalship of little things. By economy the little things grow into big things, and the pennies become dollars.

There is no virtue so unduly appreciated as economy, nor is there one so worthy of estimation; a neglect of economy eventually leads to every misery of poverty and not unfrequently, to every variety of error and crime. Perhaps one of Doctor Johnson's best maxims is, "Where there is no prudence, there is no virtue." Certainly this was one of his most instructive.

Pass a few years and the prodigal is penniless, if economy is not practiced. Then what he is in debt; friends, deceived; kindred, deprived of their rightful inheritance; and what not. Economy is the parent of integrity, of liberty, of ease; of cheerfulness, and of health; while profuseness as a cruel and crazy demon that gradually involves her followers in dependence and debt; that is, "iron enters into their souls."

A sound economy is a sound understanding brought into action. It is calculation realized; it is foreseeing contingencies and providing against them. In short, economy appears to induce the exertion of almost every good emotion; a strict regard to honesty, independence, prudence in providing for the wants and benevolence in preparing for the future. In short, economy demands the circle of the virtues; justice, disinterestedness, honesty, independence, prudence and benevolence.

By HELEN GRAFTON,  
Anaheim Union High School

## BENJAMIN FRANKLIN'S AIMS

Benjamin Franklin's great aim in life was to arrive at moral perfection. He wished to live without committing any fault at any time. To reach this perfection he pursued his idea of the 13 virtues of Temperance, Silence, Order, Resolution, Frugality, Industry, Simplicity, Justice, Moderation, Cleanliness, Tranquility, Chastity and Humility. He took each virtue separately and endeavored to acquire the habit of each one before he undertook another. Perfecting himself by this course, he became the foremost man of his age and internationally known.

After many years of practicing these virtues, Franklin made a list of rules to help him reach his aim. These are the rules: Temperance. Eat not to dullness; drink not to elevation. Silence. Speak not but what will profit others or yourself; avoid trifling conversation. Order. Let all your things have their places; let each part of your business have its time. Resolution. Resolve to perform what you ought; perform without fail what you resolve. Frugality. Make no expense, but do good to others or yourself, i. e. waste nothing. Industry. Lose no time; be always employed in some useful action; cut off all unnecessary actions. Simplicity. Use no hurtful deceit, think innocently and justly; and if you speak, speak accordingly. Justice. Wrong none by doing injuries, or omitting the benefit that is your duty. Moderation. Avoid extremes; forbear resenting injuries as much as you think they deserve. Cleanliness. Tolerate no uncleanness of body, clothes or habitation. Tranquility. Be not disturbed at trifles or accidents, common or avoidable. Chastity. Be pure in thought and action. Humility. Imitate Jesus and Socrates.

By NORMA PALMER,  
Anaheim Union High School.

Snow and ice were abundant, so the seniors, each one "raring to go," after warming themselves, indulged in washing each other's faces in the warm snow.

Sleds of many kinds and shapes were waiting in the snow for some one to come along and have a spin on them, so the seniors immediately jumped on them and tobogganed down the hills, not without many spills, however.

Most of the morning was spent in tobogganing, and many were the bumps, bruises and cuts received. In the afternoon, someone suggested that they go to the lake and do some skating on the ice. A few seniors rented skates, but did not skate long at a time.

Tuesday morning the weary bandaged seniors tramped to school, and proved to their classmates by their white bandages, limps, cuts and bruises, that they had a wonderful time.

## YOUNG WRITER URGES READING OF NEWSPAPERS

Many Departments Offer Something to Everyone Is Student's View

By TADASH NISHIMORI  
GARDEN GROVE UNION HIGH SCHOOL, Jan. 25.—How to keep up with this rapidly moving world is always a problem confronting us. Probably the simplest way to keep up with the times is to read a daily newspaper.

The newspaper, giving an accurate account of current events of the world is always up to date. Day after day, editors are striving to write editorials which will assist the people to do the thinking in their every day life.

Many of the best writers are writing exceedingly good short stories for the American daily. Examples of real literature appear in short stories, editorials and critical articles.

Another feature in favor of the newspapers reading is that it gives quickly, information concerning business, so that the business man can determine the price of the products, and the fluctuation of the price on certain goods on the market. It helps the farmer when he sells his products because he can follow the market price and sell wisely.

Important discoveries which are being made by eminent scientists are reported in the newspapers. Thus the public learns the wonderful things that are happening on the earth.

The sport enthusiasts would be few in number if it were not for the sport sheet. The daily sport sheet is largely responsible for America's reputation as a sport loving country.

Few forget to look at the comic sections. From the children to the old folks, everyone reads the "funnies." They are as essential as the comedy at the movie show.

Women will learn very much from the feature pages. They will learn how to cook, how to plan better homes. The housekeeper who reads a newspaper will keep up with her husband in her interest in world affairs.

Taking all these facts into consideration, the newspaper is the most accurate, and quickest way to get the news. Even if you look only at the head lines you have the most important events in mind in a few minutes.

The busy man can follow the daily news in this way. Let us all take a few moments each day to keep up with the world.

## Students Learn Table Manners At Tustin Meal

By ALICE PRATHER  
TUSTIN UNION HIGH SCHOOL, Jan. 25.—For the purpose of practicing table etiquette and ending the season of host and hostess did, dinner was given by the etiquette class in the cafeteria room at noon on January 24.

The class chose Everett Pearce and Jean Gliddings to act as host and hostess because they had been judged by members of the class as the most polite members in their conduct around the school. Miss Stephens, instructor, was the guest of honor. Two alumni of the class of 1924, Louise Vance and Betty Palmer, were other guests of honor.

The students stated that they had learned much about table etiquette, although many mistakes were made. One student luckily caught his plate before it slipped to the floor, or his lap. Others ate before the host and hostess did, and were "called" for doing so. All the students said that they had fun, although they had to be very careful how and when to eat.

The course consisted of bouillon, fruit salad, roast beef, baked potatoes, olives, jelly, buns and butter, cocoa, and home-made lemon cream pie. All of the course was chosen because it was a kind of food which either be hard to eat or very often eaten.

# NEWS FROM ORANGE COUNTY

## GREENEY OCEAN FRONT LAND IN NEWPORT DEAL

NEWPORT BEACH, Jan. 25.—Newport beach city trustees last night voted to lease approximately 1000 feet of ocean frontage for a period of four years at \$2175 per year from J. P. Greeley. At the conclusion of four years, the frontage will be purchased for the sum of \$2, according to the contract drawn up by City Attorney Clyde Bishop.

The ordinance calling for the \$500,000 harbor bond election for February 14 was passed for the second reading last night. With the final passing of the ordinance, the board received the endorsement of the Balboa Angling club. The Angling club presented a resolution commending the board for calling the election.

Acceptance of the appointment to the harbor advisory board was received from Dr. F. W. Slabaugh, of Santa Ana; Harry J. Bauer, of Los Angeles; and Dr. A. T. Covert, of Long Beach. Because of other business, E. J. Longyear, of Pasadena, and W. K. Parkinson, of Newport Beach, asked to be relieved. H. C. Sloan and R. D. Rodgers, of Balboa, were appointed on the board in place of the two. The other two members of the committee are Glenn Helms and Joseph A. Beck, of Balboa.

Work of installing concrete paving was ordered for Arcade street and certain other streets. A resolution of intention to install concrete paving and sidewalks on Bay avenue between A and B streets was passed. The plans and specifications as prepared and submitted to the board by City Engineer Paul E. Kresley, were approved. A business license transfer from Hugh McMillan to Rich "Shorty" Gunther was approved.

In order to protect the interests of M. R. Smith, owner of the live bait fishing boat landing at the end of Newport pier, the board ordered the city attorney to prepare an ordinance prohibiting other fishermen from the free use of the landing. Smith will be allowed to levy a charge on fishermen so using the landing, according to the orders of the board.

## NEWPORT C. OF C. TO MEET THURSDAY

NEWPORT BEACH, Jan. 25.—A meeting to formally organize a central chamber of commerce in this city will be held Thursday night, January 27, instead of tonight, as was announced yesterday. The date of the meeting was changed yesterday. The meeting place has been changed from Aunt Pat's cafe at Balboa to the grammar school auditorium.

Dr. Conrad Richter, president of the city board of trustees, is temporary chairman of the new organization.

Open discussion of dues and activities of the new organization will feature the meeting. It is expected that officers will be elected and a permanent secretary named.

## GARDEN GROVE

GARDEN GROVE, Jan. 25.—The Rev. and Mrs. George A. Francis were entertained at dinner at the home of Mr. and Mrs. J. G. Allen on Friday evening.

Later in the evening, about 50 members of the Baptist church and friends of the Rev. and Mrs. Francis gathered for a farewell party, as they are leaving for Glendale where the Rev. Francis has been appointed to the pastorate of the Calvary Baptist church.

Mr. and Mrs. Archie Scott, of Downey, were visitors on Sunday at the home of Mrs. Amy Graves.

Mr. and Mrs. Soule Oertly and family enjoyed Sunday dinner with Mr. and Mrs. George Oertly at Long Beach.

Miss Ruth Griffith and Miss Geraldine Griffith, of Santa Ana, were dinner guests at the home of Mr. D. Adams on Sunday evening. Miss Ruth Griffith is a sister of D. W. Griffith, motion picture producer.

Miss Lucille Allen, of Redlands university, is spending this week at the home of her parents, Mr. and Mrs. M. B. Allen.

Miss Edna Clark is visiting at the home of her sister, Mrs. Emerson McBride, at wife, of Pasadena, and the Rev. and Mrs. G. W. Creckmoor, of Wichita, Kansas, who are spending the winter in Pasadena, were recent guests of Mr. and Mrs. H. D. Adams. Dr. Harman was an uncle of Mr. Adams and the Rev. Creckmoor is his uncle.

Mrs. Velda Brendle and daughter, Louise, spent Monday in Los Angeles.

## DON'T STARVE TO END FAT

There is a easier way, used for 19 years, millions of people know it. The results are in every circle. Excess fat is not nearly so common as it was. That way Marmola Prescription Tablets, made to combat the cause of fat by correcting a gland weakness. The effects will surprise and delight you, and a booklet in each box tells you why they come.

All druggists supply Marmola at \$1 a box. Go try it now. Join those slender friends of yours who are glad they learned about it.

## Treasurer At Beach Lands 12-Pound Fish

NEWPORT BEACH, Jan. 25.—A big run of halibut at the Newport beach pier has attracted the attention of many Southern California fishermen. Bonita also are reported plentiful off the Newport pier.

R. S. Briggs, city treasurer, yesterday landed the largest halibut caught this year. Briggs' fish weighed 12 pounds.

## NEW TEST WELL PLANNED AT H. B.

HUNTINGTON BEACH, Jan. 25.—Another test well in the eastern part of the new city field at Huntington Beach is to be started within the next three weeks by the Biltmore Petroleum corporation. It was officially announced yesterday. The Biltmore well will be located in the same block as that of the San Martinez oil company, which is drilling on Ninth street near Walnut avenue.

San Martinez well, which is being watched with more interest than any other project at Huntington Beach at present, is down about 2000 feet, it was reported on good authority yesterday, and while reports that a tar sand had been found at 1700 feet could not be confirmed, it is known that the formations penetrated have been favorable. Cores reveal an absence of the faulted condition which is present in many parts of this district.

The Standard Oil company yesterday officially reported the completion over the week-end of three small wells in the west end of the city of Huntington Beach, with a fourth going on production yesterday. All of the wells are small compared with the early completions of the field and confirm the general opinion of most operators that the field has seen its best days.

H 19 was finished at 4348 feet, doing 277 barrels of 21.2 degree gravity oil. H No. 16, went on production at 4029 feet, making 128 barrels a day of 20.1 degree gravity oil. The crew of H No. 13 was putting the finishing touches to the well yesterday afternoon and expected to have a gauge on the output by this morning. The well is down 4338 feet.

## First Garden At San Clemente Is Owned by W. Starr

SAN CLEMENTE, Jan. 25.—Warner Starr has the distinction of having the first garden in San Clemente. Mr. Starr has onions, spinach, radishes, peas and tomatoes nearly ready for consumption. The climate and soil are especially suited to vegetables. Starr claims. The garden is in his back yard.

## EL TORO

EL TORO, Jan. 25.—Mrs. Levi Gockley will entertain the Woman's club Wednesday afternoon at her home.

Mr. and Mrs. Harvey Bennett went to Los Angeles Friday to spend the week-end with relatives, enjoying various attractions at the theaters. During their absence, Mr. and Mrs. T. F. McDonnell and Mrs. Reed, of Santa Ana, had a pleasant time with the Bennett children.

Roscoe Gockley, of Los Angeles, spent the week-end with his parents, Mr. and Mrs. Levi Gockley. Mr. and Mrs. Dale Trapp and family, Mrs. Lydia Hemenway, Mr. and Mrs. Feldenkamp and Mr. and Mrs. John Combs motored to San Juan Hot Springs Sunday.

G. W. Smith, local barber, is suffering from an attack of the flu. Mr. and Mrs. Jay Smith are still in Portland, Ore., where they were called on account of the serious illness of another son.

Nelson Arnold, of Ensenada, Mexico, transacted business in El Toro Monday.

Mrs. Harvey Bennett, Mrs. M. V. Whisler, Mrs. W. A. Cornelius, Mrs. Raymond Prothro, Mrs. Benjie Osterman and Mrs. George Osterman were guests at a bridge party at the home of Mrs. Willis Mitchell at Irvine recently.

## Field to Last 15 Years, Says Engineer

HUNTINGTON BEACH, Jan. 25.—The life of the town lot section of the Huntington Beach fields estimated at 15 years, says Lewis W. Rogers, petroleum engineer of the Superior Oil company.

The Superior Oil company was last night granted a permit to erect power lines in the western section of town. The lines are to remain standing during the life of the field, which Rogers estimated at 15 years.

It is believed that the Superior Oil company may start using electrical drilling apparatus in the near future. The Milroy Oil company and the U. S. Royalties company are the only operators now using electrical drilling equipment.

## 30 DWELLINGS BEING ERECTED IN FULLERTON

FULLERTON, Jan. 25.—More than 30 homes are under course of construction in Fullerton, according to a check made by Grovers Walters, building inspector.

Building here is more active than at any time for the past year and a half, it is said. Most of the building permits now being issued are for new residences.

During the present month, permits valued at \$50,000 have been issued. The average permit for new residences is higher for January than for the average during 1926, Grovers Walters reports.

## HANSON PRESENTS NEW CLUBHOUSE

SAN CLEMENTE, Jan. 25.—The San Clemente clubhouse was formally dedicated to the property owners of the Spanish Village last night by Ole Hansen, owner of the tract. Practically every resident in the district was present.

The clubhouse is one of the finest in Orange county. It is enhanced by furniture of Spanish design and practically all of the furniture was shipped direct from Spain. The last shipment of furniture arrived last week.

## H. B. Board Gives First Reading To 2 New Ordinances

HUNTINGTON BEACH, Jan. 25.—Two new city ordinances were read for the first time by trustees last night.

An ordinance was given its first reading which will reduce the license fee on oil rigs. The other ordinance will reduce the license fee charged for moving houses. Both ordinances amend ordinances recently passed.

Trustees discussed placing stop signals at several intersections but held the matter over until next Monday night.

Permits were granted Foster and Kleiser, outdoor advertising firm, to erect several signs in the city. A permit for a sign on Main street was refused by the city trustees.

Only three trustees were present at the meeting last night. J. W. Mitchell was appointed acting chairman in the absence of C. G. Boster. Roy Harris and Dr. G. A. Shank were the other trustees present.

## PLACENTIA

PLACENTIA, Jan. 25.—The Rev. Charles E. Fuller, pastor of Placentia Calvary church, on Sunday started a church week of evangelistic services at Santa Ana, the first of many calls for evangelistic work under the Bible institute, Los Angeles. Services at Calvary church on Sunday were in charge of the Rev. V. V. Morgan, of Long Beach.

Mrs. Adella Howerton, of daughter, Miss Ruth Howerton, of El Modena, were overnight guests at the home of Mrs. Elizabeth Brunson last week.

Mr. and Mrs. N. F. Charmicle and family visited Mrs. Charmicle's brother and wife, Mr. and Mrs. Jonas Frowdell, of Los Angeles, on Sunday afternoon.

Mr. and Mrs. Glenn Riddleberger are entertaining Mr. and Mrs. Schulze, of St. Louis, who are touring Southern California. The Riddlebergers and their guests spent the week-end in San Diego.

Winthrop Brown has returned from the avocado growers' meeting.

Mr. and Mrs. Oscar Carlson, of Palm drive, entertained at dinner on Sunday evening Mrs. C. G. Carlson and Barney and Hilda Carlson and Mrs. H. Delaney, all of Brea.

Mr. and Mrs. Louis Jacobson entertained at dinner on Friday evening Mr. and Mrs. Jennings Sturdevant, Mrs. Adelle Coyle and her sister, Miss Carrie Haviland.

A day in the snow on Mt. Baldy was enjoyed on Saturday by Don Milligan, assistant pastor of Calvary church, and his two sisters, Miss Dorothy Milligan and Mrs. Esther Gibson, of Los Angeles; Miss Edith McNutt, Mr. and Mrs. B. J. Rouse, Miss Georgie Borden, Miss Lila Borden, Paul Rouse and Frederick Barnhill, of Los Angeles.

Mr. and Mrs. C. L. Green entertained at luncheon on Sunday the Rev. V. V. Morgan of Long Beach.

Mr. and Mrs. James Huntley and their guests, Mr. and Mrs. Mat Deane, who are here from Paris, Ontario, Canada, spending the winter in Long Beach, are leaving today for San Diego to stay the remainder of this week.

## Bus Fare at Beach To Remain Same

HUNTINGTON BEACH, Jan. 25.—Citizens of this town who wish to ride to their homes on Motor Transit stages will continue to pay a fare of 15 cents.

Recently, several persons objected to paying 15 cents to ride only about a mile. They appealed to the city trustees. Trustees appealed to the railroad commission.

Last night a reply was read from the railroad commission. The commission stated that the minimum charge of the Motor Transit company was 15 cents and that the commission could not change the minimum fare unless a public hearing was called.

## H. B. TRUSTEES CALL MASS MEETING FOR DISCUSSION OF GAS SYSTEM ELECTION

HUNTINGTON BEACH, Jan. 25.—A mass meeting to discuss the sale of the municipal gas system was called for February 4 by city trustees last night. The meeting will be held in the municipal auditorium. Citizens will vote on the sale of the gas system at a special election February 8.

Trustees granted a permit to the Superior Oil company, allowing the company to erect power lines to its rigs in the local oil field. All other matters taken up by the trustees were held over until next Monday night, when the board will meet again.

Bids for a roadster for the use of a local traffic officer were opened and held over until next week. Seven bids were submitted, six of the bids coming from Santa Ana automobile dealers.

Six bids were submitted for a fire truck chassis. Five of the bids were submitted by Santa Ana automobile dealers. Dealers who submitted bids on the fire truck were M. Eitl and company, Harry D. Riley, William W. Ross, L. D. Coffing and G. M. C. company, of Santa Ana, and the Pacific Fire Extinguisher company, of Los Angeles.

Bids on the police roadster were submitted by the L. D. Coffing company, Reid Motor company, Hancock Motor company, Willys-Knight-Overland company, Harry D. Riley, J. C. Mabe, of Santa Ana, and Grover brothers, of Huntington Beach.

An application of the Julian Petroleum corporation asking permission to erect a gasoline absorption plant on the corner of Fifteenth street and Anacleto avenue was held up by the trustees for one week. A number of objections were made against the plan. It was declared that the gasoline plant would be too near the grammar school. The gasoline plant will cost \$45,000, according to a representative of the oil company.

A permit was granted the Standard Oil company to establish a service station on the corner of Twenty-third street and Ocean avenue.

Several protests were registered against the installation of new sewers on the east side of town. A petition containing 22 signatures was submitted to the trustees protesting the improvement. Trustees delayed action on the matter until next week.

Proceedings to improve Huntington avenue on the east side of town, by installing a lighting system were also laid over until next Monday night.

## 13 MESA PUPILS TO GRADUATE THURSDAY

COSTA MESA, Jan. 25.—Thirteen pupils of the local grammar school will graduate at the close of the first half of the school term. It was announced here today. Graduation exercises for the midwinter class will be held Thursday afternoon at the grammar school auditorium. The exercises will open at 2 o'clock.

A short program featuring songs by the boys and girls clubs of the school and piano selections by Walter Zais and Miss Alice Brudlin will be given.

The Rev. Lyman Bayard, pastor of the Costa Mesa community church, will deliver the invocation.

B. P. Beswick, county superintendent of rural schools, will speak. Costa Mesa school board, will present the diplomas to the graduates. Dale Hamilton Evans, principal of the school, will give a short talk.

A number of the graduating students plan to attend the Julia C. Lathrop junior high school in Santa Ana and several have announced their intention of entering Huntington Beach high school.

## Hold Fordham Rites Wednesday

FULLERTON, Jan. 25.—Lewis A. Fordham, 65, died suddenly Sunday evening at his home on West Commonwealth avenue. He is survived by his widow and three sons, Roy and George, of this city, and Elmer L. Fordham, of Hollywood, and a daughter, Mrs. A. N. Weaver, of the same city.

Mr. Fordham had been a resident of Fullerton for the past 15 years, coming to this city from Brantford, Canada. He was prominently identified with the Baptist church. He was a member of the Masonic lodge.

Funeral services will be held Wednesday afternoon at 1:30 o'clock at the Baptist church, with McCaulay and Suters in charge of the arrangements. The Rev. S. Fraser Langford of the Fullerton Baptist church will officiate. Burial will be made in the Evergreen cemetery in Los Angeles.

## L. B. Man Jailed On Driving Charge

HUNTINGTON BEACH, Jan. 25.—George Wagner, 35, of 905 Nyle court, Long Beach, was lodged in the local jail last night on a charge of reckless driving.

George Hodges, 42, of Long Beach, and Nathan Whitte, 40, of 110 Mohican camp, Long Beach, companions of Wagner, were both placed in jail on intoxication charges.

Officers V. F. Mohr and Wood arrested the men on Ocean avenue. They will appear before City Recorder Warner today.

## NEWS FROM ORANGE AND SURROUNDING DISTRICT

## DEMOLAYS IN ORANGE NAME NEW OFFICERS

ORANGE, Jan. 25.—Raymond Brown will head the De Molay chapter in Orange for the next term, it was decided at the quarterly election conducted by the chapter last night. Fred Jeffries will serve as senior counselor, Harold McCool as junior counselor and Howard Waggoner as scribe. Other officers will be appointed in time for the installation exercises on February 14, the date tentatively set last night.

An advisory council for the De Molay chapter, appointed by H. C. Nichols, high priest of the Royal Arch chapter of Masons, was present at the meeting and organized. Shamuslog was chosen president. Norman Jones was elected "Dad" advisor, Lynn Wallace, athletic advisor, W. J. Sutherland, ritual advisor, and Conger Thompson, social advisor.

## ORANGE

ORANGE, Jan. 25.—Thirty-five members of the T. N. T. club of the high school will attend a swimming party in the Santa Ana Y. M. C. A. swimming pool Thursday, it was announced today by W. J. Sutherland, advisor for the group.

Tomorrow afternoon, Miss Phyllis Lucy Keyes and William Furman, instructors in music at the Orange high school, will escort a group of 55 students to Los Angeles for the matinee performance of the opera, "Tales of Hoffman." Once each year the students of the music department are allowed a half day off to attend an opera performance in Los Angeles. Tomorrow will mark the fourth time they have gone.

F. B. Scharr moved from 362 South Shaffer street to 340 South Olive street yesterday. W. J. Rice, formerly of Orange, who has been residing in Huntington Park, will occupy the house at 362 South Shaffer street.

Mrs. G. A. Gates, of 150 North Center street, entertained her seven daughters Sunday and they all attended the services at the Christian church in the morning. The daughters were Mrs. Mary Purviance, of Richmond; Mrs. Evelyn Columbia, of Bakersfield; Mrs. L. M. MacDonald, of Placentia; Mrs. Bruce Richards, of Los Angeles; Mrs. F. T. Carpenter, of Macville, Kansas, and Mrs. M. E. Hivens.

The following were guests Sunday of Mr. and Mrs. F. A. Blake, 1130 East Collins avenue: Mr. and Mrs. John Guent and family, of Pasadena; Dr. and Mrs. George Stubbs, of Pasadena; H. I. Blake, of Los Angeles; Mrs. Dorothy Reed, of Hollywood; and Mr. and Mrs. E. W. Jardine and daughter, of Santa Ana.

Mr. and Mrs. Gus Cook, of 505 East Washington avenue, entertained the following at dinner Sunday: Mr. and Mrs. Orel Beddo and daughter, Dorothy Ann, and Mr. and Mrs. Bert Webster and family. In the afternoon they enjoyed a motor drive to Huntington Beach.

Mr. and Mrs. V. D. Johnson spent the week-end in San Bernardino with their daughter, Mrs. Clyde A. Whiteley. Mrs. Johnson remained over for a few days visit and will return home Thursday.

Mr. and Mrs. M. E. Livingston motored to Encinitas Sunday to call on Mr. and Mrs. Carl Young.

The Youngs were flower show. They attended Mrs. L. A. Durler and Mr. and Mrs. E. G. Stinson and family enjoyed a drive to Lemon Heights and surrounding country Sunday afternoon.

Mrs. T. E. Claypool and daughter, Wilma, of Winifred, Montana, have been visiting at the J. E. Claypool home left today for their home.

Mr. and Mrs. Oscar Kurtz, of 118 West Palm avenue, entertained Mrs. W. H. Erwin, of San Dimas, J. P. Spotts and Miss Emily Spotts at dinner Sunday.

Mr. and Mrs. Henry Perry, of 1324 East Chapman avenue, are confined to their home with an attack of the flu.

The Misses Mabel and Lulu Thornburg and L. O. and O. W. Thornburg, of Olive, spent the week-end in Laguna Beach, the guests of Mr. and Mrs. H. Q. Cady, of Hollywood.

Miss Ruth Mayhew has been ill for the past three weeks with a blood poisoning in her ankle, which she injured in a fall from the back porch of her home.

Mrs. C. A. MacDonald, of Los Angeles, who addressed the workers' meeting at the Christian church, is a guest at the D. S. MacDonald home.

Mr. Elizabeth Malbach, Miss Nelwyn Holt and Cecil Malbach enjoyed a motor drive to Redlands and Banning Sunday.

Mr. and Mrs. John King (Mrs. Helen Walker) left Saturday for the Santa Fe on a business trip to Oklahoma City.

Mr. and Mrs. Paul G. Muench entertained Mr. and Mrs. August Eltiste and family at dinner Sunday.

Boat Owner of Maine Likes Bay

BALBOA, Jan. 25.—A new fleet of boats may come to Newport bay some time in the near future, as the result of a visit here by Mr. and Mrs. L. Fairfield, of Islesborough, Me. it was reported here today.

Mr. and Mrs. Fairfield have been visiting at the home of Mr. and Mrs. E. C. Fairfield for some time. Mr. Fairfield is the owner of the small fleet of fishing and pleasure boats at Islesborough. He declares that he is greatly impressed with Southern California and especially Newport bay and may bring his boats to the Pacific coast.

## Urges Lye In War On Kern Mice

ORANGE, Jan. 25.—Moved by a spirit of helpfulness, Mrs. Ada L. Reavis of 801 North B Street has submitted to the Kern county chamber of commerce a method of killing mice which she states has proven successful in China, Egypt and Nebraska in mice plagues.

Mrs. Reavis says that she has used the remedy she suggests in her corn acre near the Nebraska border and she read of the method in a newspaper article.

The remedy consists of a mixture of lye and water. The mice will swim through troughs of the mixture placed around the area desired to be protected. Then they lick their feet and the poison causes them to die.

The Kern county chamber of commerce has submitted the remedy to the residents of the Buena Vista Lake basin district for possible use to rid them of the thousands of mice.

Mrs. Reavis says that she has used the remedy she suggests in her corn acre near the Nebraska border and she read of the method in a newspaper article.

**EVENING SALUTATION**

They conquer who believe they can. He has not learned the lesson of life who does not each day surmount a fear.

—Ralph Waldo Emerson.

**FEBRUARY 5TH, THE BEGINNING**

The proposal to plant several thousand Coulter pines on the devastated ridges of the Santiago canyon, without doubt, will receive county-wide support from organizations and individuals. There should be, and we believe there will be, hundreds of men and boys who will willingly take part in the planting. On that day, February 5, according to plans announced, no less than 7000 trees will be planted.

That should be just the start.

We suggest that we have another tree-planting day early in February. The forest experts have advised that planting should be not later than the middle of February. The young pines are to be dependent upon spring rains to get themselves set for the long dry summer. Planted by February 15 in a season that proves favorable, a majority of the trees will live. Planted later, the likelihood of getting a 50 per cent stand is greatly diminished whatever the season may prove to be.

Whatever is done this spring, it should be but a start. Next year we should plant 50,000 or 100,000 or more, and repeat it the following winter. There ought to be, and we believe there will always be, a great deal of volunteer help available for this work.

But if it takes money even in large amounts, expenditures will have the sanction of the taxpayers of the county.

**TUSTIN'S VALENCIAS**

The annual meeting of the Tustin Hills Citrus association this week calls attention anew to the importance of the citrus industry to that section, as well as to the ideal conditions in and around Tustin for valencia orange growing.

Tustin is the packing point for fruit grown on productive foothills, as well as on the rich soils of the floor of the valley between Tustin and the hills. Tustin has grown up with the citrus business. It began half a century ago with huge seedling orange and thorn lemon trees, and has gone through the stages of evolution that have brought us our present-day valencia groves.

Orange growing is a business. One can no more make a success of attending a ranch in a slipshod manner than he can of running a grocery store that way. The valencia is particular in its demands. It takes good soil, proper care and climatic conditions that are not severe. To good treatment, the valencia responds with rich reward. One need not ride today along the beautiful drives of Tustin, and, observing everywhere green trees heavily loaded with golden fruit, come to an immediate conclusion that the groves of Tustin are cared for by men who know the citrus business and who are enhancing Tustin's already glowing reputation as a valencia district.

**THE AIR AND ETHER**

At last there is law for aviation. Also there is a strong arm of the government in charge of its enforcement. The secretary of commerce has broad powers, and is exerting them, since Jan. 1, along lines agreed upon in extended conferences between him and leaders in all branches of the aviation industry.

Aircraft must carry government licenses, all pilots must pass examinations for fitness, and there are thorough-going rules of the road, rules of conduct and rules of equipment.

This is getting somewhere in a field where progress has been slow, as much for lack of control as for any other reason. There should be an immediate response in the form of new interest, new growth, new lines of enterprise in the realm of the air.

Fine for the air! But how about the ether? The great radio industry, since it was taken out of the control of the same government department by a court decision and kept out by the inaction of congress, is getting more chaotic and hopeless every week. Broadcasting is being ruined by lack of control for broadcasters, and thus both commercial and amateur radio, which depends so largely on popular broadcasting, are threatened. How much longer will congress wait?

**FIRST AID FOR SUICIDES**

Shortly before New Year's Eve the city chemist of Chicago issued a list of first aid measures and remedies for those who might find themselves on the morning of January 1 suffering dangerously from the effects of liquor—that is, with a "wood alcohol, carbolic acid or formaldehyde hangover."

The suggestions are probably sound, valuable to know and apply in case of any poisoning at any season of the year.

But the terrible thing about the publishing of such a list is the fact it reveals that there are persons who will deliberately run the risk of needing it, who will go ahead, apparently with their eyes open, and buy and drink the poisonous stuff the bootleggers offer, for the purpose of celebrating the passing of an old year and the dawn of a new.

It's a queer human race, isn't it?

**SCIENTIFIC TRAFFIC METHODS**

"Traffic control," says the president of the Studebaker Corporation of America, "is an engineering problem. It is significant of the progress that is undeniably being made in traffic control that the greatest successes have resulted from the application of sound engineering methods to a specific problem that has first been scientifically studied from every angle of approach."

"Los Angeles once stood at the head of the list in its number of traffic accidents, and congestion had reached an intolerable stage. A traffic survey was made and a code based on the survey adopted. The new code resulted in an increase of 50 per cent in the flow of traffic, and over a period of two years has cut accidents 33 per cent in the face of a 35 per cent gain in motor vehicle registrations."

What that city has done other cities can do. A few other cities are attacking their local problems along similar lines. A survey in Chicago has brought out that a saving of \$27,000,000 could be effected by a 10 per cent reduction in traffic congestion alone.

Most city streets have been constructed according

to the transportation styles and needs of former generations. That is why the marvelous development of motor transportation has found cities unprepared and traffic inadequately cared for. Now that public officials and automobile men are looking at the situation as one requiring the application of engineering methods, the outlook becomes hopeful.

Some of us wouldn't mind a bit having an oil concession in Mexico for 50 years.

**Getting Down to Business**

Padena Star-News

When flying is commercialized it is a permanent activity and it grows. Although the airplane is an American invention, it was first put to large commercial use in Europe. For a number of years regular schedules have been maintained over established routes on the Continent and between the Continent and the British Isles. Now that American energy and capital have entered into the business on an extensive scale, aviation in the United States is becoming stabilized and its future is assured.

The first horseless carriage was a curiosity, and was exhibited as such. Perhaps Henry Ford, in his enthusiasm for the development of the automobile, foresaw the progress that was waiting upon the motor vehicle, but surely few other Americans possessed that gift of prophecy.

The flying machine has been going through very much the same evolution that attended the automobile, for the Wright brothers' invention was looked upon at the outset as having chief value for exhibition purposes. The war demonstrated its scouting possibilities, and now the principle has been expanded to the degree that heavy loads can be carried at great speed through the air.

Legislation is keeping pace with the improvement of design and construction of airplanes, and with the opening of 1927 the new Air Commerce Act has become fully effective. All aircraft in the country engaged in commercial or interstate business, and all to be manufactured, now come under provisions of this law, the aim of which is to increase the safety and usefulness of civil aviation and thus to give America an added facility in transportation and communication. Pilots will be licensed, and regular, dependable inspection of planes will be required. Governmental assistance is given under this Act to the charting and lighting of air routes, and to the collecting and disseminating of weather data for the safe guidance of pilots, and to the establishment of landing fields, especially fields for emergency purposes. The highest aeronautical authorities were consulted in the preparation of this law, and the control has been placed with the Department of Commerce.

These safeguards will build up public confidence in aviation, thus assuring that increasing patronage which will further encourage private efforts for the establishment of definite air routes throughout the United States.

**March Field Possibilities**

Riverside Enterprise

The prospective developments at March Field have awakened an intense interest in that project and have called to memory the day when it was a beehive of activity during construction time and later when its officers and flying cadets formed an important part of the social and civic life of the community. A return to a semblance of these former days would mean a great deal to Riverside and all of Southern California. The construction period would, of course, come first and the work would proceed on a much more orderly and permanent plan than was true during the high pressure days of war time construction. The personnel that will follow will also be more permanent and once established will undoubtedly be increased through the years as the government flying program develops to meet the demands of what will in time come to be one of the most important branches of military and civil service.

While news of permanent construction is important to Riverside and will be met with great enthusiasm, the human factor is still more so, as it will bring a fine type of men and their families into touch with the life of the community.

**Fallen from Its High Estate**

San Francisco Chronicle

And now Death valley is to be a mere tourist resort. What a come down, as Clemenceau remarked of the artist Paderewski transformed into a mere Premier Paderewski. Death valley fitted out with hardwood floors, tiled bathrooms, a la carte, and jazz orchestra! By every spring and water hole in the Southwest, the shades of the departed desert men will moan. We might have expected anything else than this assault on the last stamping ground of the West that was. Is there to be no place on earth left still with the romance of inaccessibility and grim inhospitality, no place for man to test himself against?

Editor of Journal of American Medical Association

**BLACK MOLES ARE OFTEN HARMFUL**

It has been estimated that there are five moles on an average on every person in the city of Chicago.

If all of these were to be removed, it would require more than 15,000,000 separate surgical operations.

The history of moles would be an extremely interesting topic, since they were long regarded as of great significance—sometimes considered the work of evil spirits; sometimes thought to be due to the influence of the moon or the stars, and occasionally thought to be of importance in determining configuration of the body.

Charts of moles were prepared so that one might tell by observing those that were visible where to expect others that might be invisible. Needless to say, all of this was superstitious and without the slightest scientific importance.

As long as a mole does not disfigure the appearance, it is best disregarded, unless under certain circumstances it becomes irritated and subject to the unusually rapid growth that is characteristic of cancer.

If a mole is extremely brown or black, it has in it an unusual amount of a pigment called melanin, which is responsible for giving the color to the hair, the eyes, and the deeper layers of the skin.

Somewhat, the presence of this substance seems to be associated with dangerous possibilities, so that a severe injury of a deeply pigmented mole may cause it to suddenly develop rapid growth.

The most dangerous moles are those that are jet black. If these are situated where they are constantly rubbed or irritated by collars, garters, shoes or other garments, they should be most carefully watched.

The danger signs have been listed by some doctors as: (1) a gradual increase in the size of the mole; (2) deepening or spreading of the color; (3) ulceration or infection; (4) pain or soreness in the mole. If any of these symptoms appear, the persons concerned should promptly consult a physician. If they do not appear, the mole should be left alone and not teased by irritation, rubbing, picking, scratching, or half-hearted attempts at its removal.

**It Is Good Business**

San Francisco Chronicle

When a primeval woman first found a drier and safer cave in which to keep her young, and persuaded her savage mate to defend it against intruders, there began the Own Your Own Home movement. There also was laid the foundation of stable human society, of the arts, sciences and all that goes to make up civilization.

The principle is no less potent today than it was in the beginning. In proportion to the ownership of homes, society is stable. The more homes that are owned, the more persons have a stake in the community and the greater the number working for the common good.

And the rule works both ways. For the accumulated benefits of civilized society are shared first by the home owners. They have a permanent lien on the blessings of peace and order and permanency.

Home ownership is a stimulus to thrift and a material assurance of security in old age. It is a practical training in good business methods for the children in the family. It cannot help but be an aid to the commandment, "Honor thy father and thy mother."

"Own your own home."

**Worth While Verse**

**CHARACTER OF A HAPPY LIFE**  
How happy is he born and taught  
That serveth not another's will;  
Whose armor is his honest thought  
And simple truth his utmost skill!

Whose passions not his masters are,  
Whose soul is still prepared for death,  
Untied unto the world by care  
Of public fame, or private breath;

Who envies none that chance doth rise  
Nor vice; Who never understood  
How deepest wounds are given by praise;  
Nor rules of state, but rules of good;

Who hath his life from rumors freed,  
Whose conscience is his strong retreat;  
Whose state can neither flatterers feed,  
Nor ruin make oppressors great;

Who God doth late and early pray  
More of His grace than gifts to lend;  
And entertains the harmless day  
With a religious book or friend;

—This man is freed of servile bands  
Of hope to rise, or fear to fall;  
Lord of himself, though not of lands;  
And, having nothing, yet hath all.

—Sir H. Wotton.

**Time To Smile**

**HE'S SCOTCH**  
Tailor (measuring man for suit of clothes)—And how would you like the pockets, sir?  
MacPherson—Weel, just a wee bit difficult to get at.—Titt-Bits, London.

**MODERN ALIBI**  
Misses—Hilda, can't you see the spider's web. Remove it at once!  
The New Maid—I thought it was part of the wireless, ma'am.  
—Sendagonease-Strix, Stockholm.

**BETTER TO EAT**  
"These are our goldfish," said one small boy to another. "Do you have goldfish?"  
"No, my mother only buys sardines."—Karikaturen, Oslo.

**Barbs By Tom Sims**

Keep walking to keep well, the doctors advise. To be sure, and occasionally, jump.

Famous last lines: "But, judge I tell you I had the right of way!"

All records in road building will be broken this year, says an engineer. Then, hol for the life of a detourist!

A pessimist is a man who has met too many optimists.

**Your Income Tax**

This is one of a series of articles, based on the revenue act of 1926, written by the U. S. Bureau of Internal Revenue.

No. 8

Under the revenue act of 1926 the maximum amount which may be claimed as earned income, to which a credit of 25 per cent applies, is increased from \$10,000 to \$20,000. To claim this credit on the tax due on net income in excess of \$5,000, the income must actually be earned as "wages, salaries, professional fees, and other amounts received as compensation for personal services."

In computing the earned income credit, the surtax, which applies to incomes in excess of \$10,000, is taken into consideration for the first time under the revenue act of 1926. The tax on an earned net income of \$20,000 is computed in the case of a married man without dependents as follows:

Net income	\$20,000.00
Less personal exemption	3,500.00
Balance, taxable	16,500.00
1 1/2 per cent on first \$4,000	60.00
3 per cent on the second \$4,000	120.00
5 per cent on the remainder of the \$16,500	425.00
Surtax on net income of \$20,000	220.00
Total normal and surtax	\$25.00
Less 25 per cent of \$25, earned income credit	206.25
Balance of tax payable	618.75

The surtax rates apply to net income in excess of \$10,000. The maximum surtax rate is now reduced to 20 per cent, which applies to net incomes in excess of \$100,000, instead of a maximum rate of 40 per cent on net incomes in excess of \$500,000, as was provided by the revenue act of 1924.

**INCOME TAX IN A NUTSHELL**

**WHO?** Single persons who had net income of \$1,500 or more or gross income of \$5,000 or more, and married couples who had net income of \$3,500, or more or gross income of \$5,000 or more must file returns.

**WHEN?** The filing period ends March 15, 1927.

**WHERE?** Collector of internal revenue for the district in which the person lives or has his principal place of business.

**HOW?** Instructions on Forms 1040A and 1040; also the law and regulations.

**WHAT?** One and one-half per cent normal tax on the first \$4,000 in excess of the personal exemptions and credits. Three per cent normal tax on the next \$4,000. Five per cent normal tax on the balance of net income. Surtax on net income in excess of \$10,000.

**What's an Education?**

San Diego Union

It is really all wrong to speak of "acquiring" an education as though an education were an inanimate commodity that might reasonably be listed under personal property. An education is a living, growing and sometimes unruly intellectual organism. The man who gets to thinking that he has acquired an education and possesses it, finally and for all time, is apt to find out that what he has isn't an education at all, but the mere mummified carcass of an education. Many a college graduate undergoes this trying experience, only to be further humiliated by the discovery that the education "given" him in college isn't enough to make even a respectable corpse.

This is perhaps a "somewhat gruesome statement of the negative side of experience with education. On the positive side, there is nothing more exacting, more trying and more rewarding, than trying to keep an education alive and reasonably active.

This figurative description of an education is only suggestive, not exact. It is painfully susceptible to what Ring Lardner and other authorities have termed the "reducing ad absurdum. But it is valid by a great many tests. An education resembles an organism in that it demands nourishment, it lives and grows, it can reproduce itself, and if it is not independent of its environment, it frequently behaves as though it were a genuine education. A notably venturesome, and sometimes untractable.

People who have an education to "raise" are alternately harassed and delighted by the responsibilities which the business lays upon them. The intellectual world, the world of facts, the modes of human behavior, are constantly changing; and the education pines away upon stale nourishment. It cannot be fed wholly from text books and encyclopedias. The man who finds himself involved in his education's struggle for existence is quite sure to be kept busy.

Supplying facts by no means satisfies the demand for educational nourishment. Very frequently, indeed, an autopsy over a deceased education will reveal that it has been cruelly surfeited with facts. But the mere supplying of enough facts—the actual

surfeiting is usually done by college professors, statistical analysts and plodding devotees of a correspondence course in culture—even the mere supplying of facts requires a good deal of toil.

Tremendous things are going on about us in the world today. All the modern technique of communication supplies us with hints, fragments, rumors and surmises. Education demands some knowledge of them. That is hard to acquire. And when the facts are supplied, education clamors for interpretations of them, for correlations, for syntheses of past and present into speculation as to the future.

The term "educated" is one of the fallacious conveniences of language, for it implies something that cannot be true. It implies a state of rest, completeness and full satisfaction which the harassed, eager, curious, man with a living education never can hope to obtain. A man with a "finished" education is a dull and mossy sort of a monument.

**Today's Birthdays**

Dr. Simon F. Tolmie, the new leader of the Conservative party in British Columbia, born in Victoria, B. C., 60 years ago today.

Charles Curtis of Kansas, Republican leader in the United States senate, born in Shawnee county, Kas., 67 years ago today.

Matthew Woll, vice president of the American Federation of Labor, born in Luxemburg, 47 years ago today.

Harry L. Davis, a former governor of Ohio, born in Cleveland, O., 49 years ago today.

Ernest F. W. Alexanderson, celebrated American electrical engineer and inventor, born in Sweden, 49 years ago today.

**One Year Ago Today**

Col. William Mitchell, U. S. A. was removed from the Army Air Service.

**The Oggst-Pedagog-Gog**

By SHIRLEY RODMAN WILLIAMS

PURE nonsense has its definite and legitimate place in child education. Children love laughter and nonsense. The grown up world would be a healthier, happier place if folks took themselves less seriously and laughed more. There are homes where the inmates don't laugh from one week's end to the other. How much they miss. I heard a mother beg her teen age daughter to stay home more. The girl retorted, "Why should I stay home, we never have any fun around here. Why, you and father never told and laugh." There was a real problem. I felt equally sorry for the mother and for the child. A wee girl of four I know, has a great gift—she comes laughing "I know how we can make some fun. Mother." Isn't that splendid—when there isn't any fun, just make some!

**TO the Land of Pretend mother took me one day:**  
We rode on a snail taxi-cab  
I sat in front and drove all the way  
"Til we met with a red old sea crab

**SAID he, "I'm the Oggst Pedagog-gog**  
Come along now and visit my school  
So we paid up our snail with a green lollipop  
And followed the crab to his pool

**THERE in the water the fish school cavorted**  
With bonnets tied under their chins  
They had base balls, and dumb bells, and toys all assorted,  
And a lunch box tucked under their fins

**THE Oggst Pedagog held up a slipper**  
And all the school started to sing  
"Oh, a little fish sailed for a swim in the dipper  
With a pink balloon tied to each fin."
